Young People and Social Media: Contemporary Children's Digital Culture Steve Gennaro, Blair Miller, 2021-10-05 Young People and Social Media Contemporary Children s Digital Culture explores the practices relationships consequences benefits and outcomes of children s experiences with on and through social media by bringing together a vast array of different ideas about childhood youth and young people s lives These ideas are drawn from scholars working in a variety of disciplines and rather than just describing the social construction of childhood or an

understanding of children's lives this collection seeks to encapsulate not only how young people exist on social media but also how their physical lives are impacted by their presence on social media One of the aims of this volume in exploring youth interaction with social media is to unpack the structuring of digital technologies in terms of how young people access the technology to use it as a means of communication a platform for identification and a tool for participation in their larger social world During longstanding and continued experience in the broad field of youth and digital culture we have come to realize that not only is the subject matter increasing in importance at an immeasurable rate but the amount of textbooks and or edited collections has lagged behind considerably There is a lack of sources that fully encapsulate the canon of texts for the discipline or the rich diversity and complexity of overlapping subject areas that create the fertile ground for studying young people's lives and culture The editors hope that this text will occupy some of that void and act as a catalyst for future interdisciplinary collections Young People and Social Media Contemporary Children's Digital Culture will appeal to undergraduate students studying Child and Youth Studies and given the interdisciplinary nature of the collection scholars researchers and students at all levels working in anthropology psychology sociology communication studies cultural studies media studies education and human rights among others Practitioners in these fields will also find this collection of particular interest

Empowering Indian Women Through Resilience Abha Singh, Rahul Bhadouria, Sachchidanand Tripathi, Ritu Modi, Shashidhar Gupta, 2025-02-24 The book examines various aspects of women empowerment in South Asia particularly in India The term empowerment refers to women's liberation from social economic restraints of reliance Women worldwide actively work as leaders and establish new dimensions in all fields Yet in India although women comprise around 50% of India's population most stay economically dependent and in most Indian villages and towns women are still denied fundamental education After more than 75 years of independence as a country we need to take a long overdue in depth look at empowering women in India and how women empowerment should be a powerful tool for national development This book aims to discuss the empowerment of women through examining the social and personal challenges faced by women as well as evaluating areas such as gender discrimination education opportunity and employment opportunity

How social media affects our self-perception**

Nick Feldmann, 2022-03-16 Bachelor Thesis from the year 2019 in the subject Psychology Media Psychology language English abstract Social networks allow us to keep in touch with people all over the world In addition to personal messages many users also post pictures and videos from their everyday lives For many people however this has not only positive effects In fact social media can also have a negative impact on our sense of well being In particular the constant comparison with the postings of other users can unsettle not only young people Nick Feldmann looks at the connection between social comparison processes on Instagram and the user's self esteem Due to the high user numbers of social media a particularly large number of people are affected by these mechanisms Self perception also has a major influence on success in life Feldmann therefore examines the extent to which conscious and unconscious comparison with other people in social networks affects self worth
