Open AI and Computational Intelligence for Society 5.0 Pandey, Rajiv, Srivastava, Nidhi, Prasad, Rajesh, Prasad, Jayashree, Garcia, Manuel B., 2024-11-29 As technology rapidly advances the complexity of societal challenges grows necessitating intelligent solutions that can adapt and evolve However developing such solutions requires a deep understanding of computational intelligence CI and its application in addressing real world problems Moreover ethical considerations surrounding AI such as bias and accountability are crucial to ensure responsible development and deployment of intelligent systems Open AI and Computational Intelligence for Society 5 0 offers a comprehensive exploration of CI providing insights into intelligent systems theory design and application This book is a practical guide for scientists engineers and researchers seeking to develop thoughtful solutions for complex societal issues Integrating disruptive technologies and frameworks illuminates the path toward creating intelligent machines collaborating with humans to enhance problem solving and improve quality of life

The myth of good AI Arshin Adib-Moghaddam, 2025-05-27 The myth of good AI offers a bold new approach to understanding artificial intelligence and its implications for human security Dismantling the good AI narrative pedalled by tech giants the book exposes the full extent of AI s nefarious impact on society Drawing on a wide range of literature the book provides a gripping synthesis of debates in philosophy medicine media psychology international affairs economics and politics It charts the full spectrum of AI related themes and explores what implications AI has for our future while equipping the reader with strategies for survival

Dialogues on Human Enhancement Nicholas Agar, 2023-09-14 We face an emerging range of technologies that can be applied to our human natures with the goal of enhancing us There are nootropic smart drugs and gene editing that influence the development of the brain The near future promises cybernetic technologies that can be grafted onto our brains and bodies The challenge for readers of Dialogues on Human Enhancement is to decide how to respond to these and other coming enhancement technologies As you read these dialogues you will meet passionate advocates for a variety of responses to enhancement tech ranging from blanket rejection to ecstatic endorsement You ll encounter Olen for whom there is no such thing as too much enhancement You ll meet Winston a bioconservative who fiercely but also imaginatively opposes any human enhancement And there is the moderate Eugenie who strives to distinguish between enhancement technologies that should and should not be accepted As these characters philosophically engage with each other they will benefit from the supervisory presence of Sophie the philosopher Dialogues on Human Enhancement does not arrive at a single conclusion Olen s transhumanism Eugenie s moderation and Winston s bioconservatism are presented as viable and necessary views as we enter a future made uncertain by human enhancement tech And the book also welcomes the voices of students even and especially if they challenge the opinions of our age s experts As students join the conversations in this book they will formulate their own views about how humanity could or should be in our Age of Human Enhancement

Enhancing the Scholarship of Teaching and

Learning in Online Learning Environments Rahimi, Regina, Soares, Lina, 2025-02-06 The exploration of teaching and learning in online environments is increasingly relevant as education continues to shift toward digital spaces Understanding how instructors and learners engage with and enhance these virtual experiences is vital for improving educational outcomes and fostering more effective learning communities This focus on the Scholarship of Teaching and Learning SoTL in online contexts provides valuable insights that can influence pedagogical practices across disciplines As the demand for quality online education grows the impact of such research can lead to more equitable accessible and engaging educational opportunities for diverse learners worldwide Enhancing the Scholarship of Teaching and Learning in Online Learning Environments demonstrates a variety of ways in which instructors and learners engage in the study of teaching and learning It provides a unique perspective in that it will feature works of scholars engaging in the work of SoTL specifically in online environments Covering topics such as community engagement interactive activity communications and pedagogical excellence this book is an excellent resource for teachers school administrators computer scientists professionals researchers scholars academicians and more

AI and Authorship in Scholarly Communication Heather Moulaison-Sandy, 2025-05-16 AI and Authorship in Scholarly Communication explores the role of artificial intelligence AI as it pertains to scholarly research and writing Explaining what AI is and how it can be used by scholars the book also focuses on aspects with the potential to change the scholarly communication landscape Bringing together research on AI and writing from the scholarly literature in LIS and beyond the book weaves together information about essential topics relating to AI and authorship In laying out the primary concerns surrounding AI in the field of scholarly communication Moulaison Sandy considers how those concerns map to norms and practices in research and writing The book likewise explores the future landscape of scholarly communication an environment in which AI will continue to play an important role AI and Authorship in Scholarly Communication will be of great interest to scholars students and practitioners and will be particularly useful to those studying AI or authorship from a library and information science LIS perspective Researchers or practitioners working in higher education or with learning technologies will also find much to interest them within the pages of the book

Analytics in the Age of Artificial Intelligence: The Why and the How of Using Analytics to Unleash the Power of Artificial Intelligence Priyo Chatterjee, 2021-07-07 Artificial Intelligence is a significant development in the technological landscape and it is poised to be a veritable game changer for all concerned Given globalization and the winner take all market dynamics there is a superstar effect at play in most markets where a select few companies capture a lion s share of the market as well as the profit Given this environment Analytics goes from becoming a good to have to a must have if organizations are to take this opportunity to leverage the power of artificial intelligence and other adjacent technologies in an impactful manner In this book Priyo Chatterjee drawing on his years of experience in the Analytics and Data Science space takes a methodical approach to Analytics by first demonstrating why it has become so critical in The Age of Artificial

Intelligence Then he shows how companies can become more Analytical and thereby successful in deploying artificial intelligence strategies

Digital Libraries Across Continents Le Yang, Alicia Salaz, 2025-06-13 *Digital Libraries Across Continents* illustrates how digital librarianship practitioners and scholars digitize exhibit and preserve their cultural heritage and how these practices may be influenced by the policy economic and sociocultural environments in which they are developed Including scholarly articles case studies examples of best practice and conceptual essays solicited from different continents this book provides an overview of the status quo of digital libraries around the globe The case studies examine how macro level policy funding and social priorities influence the development of digital libraries The volume offers a deeper understanding of the similarities and differences between libraries in different countries and the ways in which they view foster develop and sustain digital librarianship Chapters within the book examine systems standards workflows content protocol social and policy environments culture metadata and more through a series of case studies provided by practitioners working in these settings Taking a comparative international approach the book promotes the development of inclusive accessible and sustainable digital libraries that serve a global human knowledge endeavor *Digital Libraries Across Continents* provides a wide ranging examination of issues in cross border digital library contexts It will be essential reading for library practitioners as well as information scientists and educators

Public Relations and the Rise of AI Regina Luttrell, Adrienne A. Wallace, 2025-02-19 This book explores the potential of artificial intelligence AI to transform public relations PR and offers guidance on maintaining authenticity in this new era of communication One of the main challenges PR educators researchers and practitioners face in the AI era is the potential for miscommunication or unintended consequences of using AI tools This volume provides insights on how to mitigate these risks and ensure that PR strategies are aligned offering practical guidance on maintaining trust and authenticity in PR practices Readers will learn to leverage AI for enhanced communication strategies and real time audience engagement while navigating the ethical and legal implications of AI in PR Featuring contributions from leading scholars the book includes case studies and examples of AI driven PR practices showcasing innovative approaches and lessons from well known brands It offers a global perspective on AI s impact on PR with insights for practitioners and scholars worldwide This book equips public relations educators researchers and professionals with the knowledge and tools they need in the changing landscape of communication in the age of AI

The Journal of Education , 1914 **Journal of Education** , 1914 **Primitive Methodist** , 1898 **Digital Humanities in the India Rim** Hart Cohen, Ujjwal Jana, Myra Gurney, 2024-11-06 This varied collection delves into illuminating examples of Digital Humanities research and practice currently being undertaken by academics in India and Australia and seeks to understand the shared challenges as well as the points of similarity and difference between them From the influence of Netflix on International Relations to contemporary digital adaptations of Mary Shelley s *Frankenstein* via detours into erotics empathic robots and the cultural specificity of online dating these essays convey the distinctive

breadth and imagination of research in this field Digital Humanities is a relatively new discipline in the India Rim and this novelty has created space for innovative research ideas as well as the use of traditional methodologies and software in different ways within these unique cultural spaces that could potentially influence how Digital Humanities is conceptualised internationally For example drawing on Indian classical logic leads to novel designs and applications of computation This lively volume offers a fresh look at the Digital Humanities and an important overview of the work taking place in a region other than the Western countries that typically dominate the field It has much to offer both experienced researchers and those new to the Digital Humanities

Four Battlegrounds Paul Scharre, 2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club's Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today's great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre's account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China's National Team of leading AI companies to show the chilling synergy between China's government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order
