Organizing for the New Normal Constantinos C. Markides, 2021-04-03 We live in a world of continuous disruption Before we have a chance to respond to one disruption another hits Before we finish one transformation journey we need to embark on another How do you prepare the organization for this new normal of continuous disruption This is the challenge that every organization is now facing no matter how successful their digital transformation of the past decade has been *Organizing for*

the New Normal explores how to prepare the organization for this unique challenge How do you develop a strategy for what is coming next while you are busily driving your current transformation And how do you convince emotionally exhausted employees to join you on the journey The book does not provide a ready made recipe for success but rather explores how to put together the ingredients that will improve the odds of success Organizing for the New Normal outlines the leadership competencies critical for success in the new normal such as How to create a permanent sense of urgency and an organization wide unease with the status quo How to convince people to exploit disruption as an opportunity when all they see around them are the negative consequences of disruption How to institutionalize into the DNA of the organization the day to day behaviors that would allow us to identify and respond to change early and how to achieve this in a decentralized way How to develop a strategic response that is innovative and aims to attack the disruption rather than defend against it

Fitness, Technology and Society Brad

Millington, 2017-09-18 The fitness industry is experiencing a new boom characterized by the proliferation of interactive and customizable technology from exercise themed video games to smartphone apps to wearable fitness trackers This new technology presents the possibility of boundless self tracking generating highly personalized data for self assessment and for sharing among friends While this may be beneficial for example in encouraging physical activity the new fitness boom also raises important questions about the very nature of our relationship with technology This is the first book to examine these questions through a critical scholarly lens Addressing key themes such as consumer experience gamification and surveillance *Fitness Technology and Society* argues that fitness technologies by datafying the body and daily experience are turning fitness into a constant pursuit The book explores the origins of contemporary fitness technologies considers their implications for consumers producers and for society in general and reflects on what they suggest about the future of fitness experience Casting new light on theories of technology and the body this is fascinating reading for all those interested in physical cultural studies technology and the sociology of sport

The Quantified Self Deborah Lupton, 2016-09-07 With the advent of digital devices and software self tracking practices have gained new adherents and have spread into a wide array of social domains The Quantified Self movement has emerged to promote self knowledge through numbers In this

groundbreaking book Deborah Lupton critically analyses the social cultural and political dimensions of contemporary self tracking and identifies the concepts of selfhood and human embodiment and the value of the data that underpin them The book incorporates discussion of the consolations and frustrations of self tracking as well as about the proliferating ways in which people s personal data are now used beyond their private rationales Lupton outlines how the information that is generated through self tracking is taken up and repurposed for commercial governmental managerial and research purposes In the relationship between personal data practices and big data politics the implications of self tracking are becoming ever more crucial
