

STATE POWER AND STAYING POWER: INFRASTRUCTURAL MECHANISMS AND AUTHORITARIAN DURABILITY

Dan Slater and Sofia Fenner

The contemporary literature on authoritarian durability focuses more on democratic-looking institutions such as parties, elections and parliaments than the institutions in which authoritarian regimes are most importantly embedded: the state itself. This article argues that state power is the most powerful weapon in the authoritarian arsenal. After clarifying the regime-state distinction and explaining why regime durability involves more than just duration, we discuss four "infrastructural mechanisms" through which authoritarian regimes stabilize and sustain their rule: (1) co-opting rivals, (2) extracting revenues, (3) registering citizens and (4) cultivating dependence. Since state apparatuses are the institutions best geared for performing these tasks, their effectiveness underpins authoritarian durability in a way that no other institution can duplicate. And since state power is shaped by long-term historical forces, future studies should adopt the kind of historical perspective more often seen in leading studies of postcolonial economic development than of authoritarian durability.

"You should no more confuse the state with its government than you would confuse a fine Jaguar automobile with the person who drives it."

Professor Robert Frykenberg¹

States and regimes are perennial yet largely parallel obsessions in political science.² When scholars study the state, they commit to exploring the extent rather than the form of government.³ Specialists on regimes undertake the inverse commitment, asking how and why the state's power is constrained rather than extended and expanded. One conversation centers on whether and why regimes

Education and Employment in the European Union Dimitris N. Chorafas, 2011 Dimitris Chorafas argues that European educational standards from primary schools through to universities leave much to be desired He then turns to employment Already affected by problems with education employment is fettered by structural issues ranging from inflexible labour laws to heavy social costs Here Dimitris suggests what might be done to get employment moving again in difficult economic times Employment and pensions work in synergy In the final part Chorafas examines the implications of and future for pension provision taking a polyvalent approach which embraces state pensions company pensions and the workings of pension funds as well as healthcare issues and the longevity risk *Scientific American*, 1918 Monthly magazine devoted to topics of general scientific interest

Ghost Ship A.D.A France-Williams, 2020-07-10 The Church is very good at saying all the right things about racial equality But the reality is that the institution has utterly failed to back up these good intentions with demonstrable efforts to reform It is a long way from being a place of black flourishing Through conversation with clergy lay people and campaigners in the Church of England A D A France Williams issues a stark warning to the church demonstrating how black and brown ministers are left to drown in a sea of complacency and collusion While sticking plaster remedies abound France Williams argues that what is needed is a wholesale change in structure and mindset Unflinching in its critique of the church *Ghost Ship* explores the harrowing stories of institutional racism experienced then and now within the Church of England Far from being an issue which can be solved by simply recruiting more black and brown clergy says France Williams structural racism requires a wholesale dismantling and reassembling of the ship before it is too late
