

A photograph of the Washington Monument at sunset. The monument is a tall, white, obelisk-shaped structure that dominates the center of the image. The sky is a warm, orange-hued gradient, suggesting the sun is low on the horizon. In the background, the silhouettes of other Washington, D.C. buildings are visible, some with lights on. The foreground shows the reflecting pool and the walkways leading to the monument.

Pdf Washingtons Monument Fascinating History Obelisk:

Washington's Monument John Steele Gordon, 2016-02-02 The colorful story behind one of America's greatest monuments and of the ancient obelisks of Egypt now scattered around the world Conceived soon after the American Revolution ended the great monument to George Washington was not finally completed until almost a century later the great obelisk was finished in 1884 and remains the tallest stone structure in the world at 555 feet The story behind its construction is a largely untold and intriguing piece of American history which acclaimed historian John Steele Gordon relates with verve connecting it to the colorful saga of the ancient obelisks of Egypt Nobody knows how many obelisks were crafted in ancient Egypt or even exactly how they were created and erected since they are made out of hard granite and few known tools of the time were strong enough to work granite Generally placed in pairs at the entrances to temples they have in modern times been ingeniously transported around the world to Istanbul Paris London New York and many other locations Their stories illuminate that of the Washington Monument once again open to the public following earthquake damage and offer a new appreciation for perhaps the most iconic memorial in the country

To the Immortal Name and Memory of George Washington Louis Torres, 2010-09-01 The Washington Monument is one of the most easily recognized structures in America if not the world yet the long and tortuous history of its construction is much less well known Beginning with its sponsorship by the Washington National Monument Society and the grudging support of a largely indifferent Congress the Monument's 1848 groundbreaking led only to a truncated obelisk beset by attacks by the Know Nothing Party and lack of secured funding and from the mid 1850s to a twenty year interregnum It was only in 1876 that a Joint Commission of Congress revived the Monument and entrusted its completion to the U S Army Corps of Engineers In *To the Immortal Name and Memory of George Washington* The United States Corps of Engineers and the Construction of the Washington Monument historian Louis Torres tells the fascinating story of the Monument with a particular focus on the efforts of Lieutenant Colonel Thomas Lincoln Casey Captain George W Davis and civilian Corps employee Bernard Richardson Green and the details of how they completed the construction of this great American landmark The book also
