Pdf For Mpumalanga University:

Creating the New African University ,2023-05-25 Creating the New African University grapples with the existence of African universities particularly in post independent Africa where Higher Education Institutions HEIs are supposed to live up to the expectations of being adaptive in dealing with prevalent complex dynamic contemporary and future challenges facing African societies The book tackles the issue of what ought to be done for African universities to maintain a structure and identity that ensures their relevance in Africa s development through generating and transforming knowledge into actions for the common good It engages issues within the context of how post colonial transformative obligations have been managed in light of the prevalent epistemological and pedagogical underpinnings that form the foundations of these universities as they seek to break from the clutches of colonial legacies This book further highlights an urgent need to do away with silos and embrace a multidisciplinary interdisciplinary transdisciplinary and cross disciplinary dialogical approach towards knowledge generation Such an approach is essential in efforts aimed at enhancing the sustainable reconfiguration of university structures and functions whilst linking knowledge produced to diverse social economic and political facets of African societies in ways that promote and sustain competitiveness in a rapidly globalising world beset with technological advancements Regional Sustainability - South Africa 2015 Students of the 2015 Field Study Program,2015-06-21 This

book is a compilation of the research essays and proposals written by students who participated in the Field Studies in Regional Sustainability Program in South Africa in January February 2015 Each section focuses on a particular problem identified in the context of the Mpumalanga lowveld and the contributions attempt to address these issues by linking policy frameworks with strategies and projects aimed at improving the sustainability of the region *Decentralized Governance and Climate Change* Jorge Martinez-Vazquez,Paul Smoke,Serdar Yilmaz,2025-10-07 This book sheds light on the underexamined roles of subnational governments SNGs in mitigating and responding to climate change issues Drawing on scientific institutional fiscal and political perspectives it provides novel insights into the governance of the crucial intersection between decentralization and climate action with a particular focus on developing countries *Corrupted*

Jonathan D Jansen,2023-02-01 In South African higher education the images of dysfunction are everywhere Student protests Violence Police presence Rubber or real bullets Class disruptions Burning tyres Damaged buildings Injury and sometimes death Reports of wholesale corruption Year after year often in the same set of universities the problem of routine instability seems insoluble The financial academic and reputational costs of ongoing dysfunction are high especially for those universities caught up in the never ending struggle to overcome apartheid legacies Any number of explanations have been ventured including a lack of resources shortage of capacity rural location corrupt officials and endemic conflict *Corrupted* takes a deeper look at dysfunction in an attempt to unravel the root causes in a sample of South African universities At the heart of the problem lies the vexed issue of resources or more pertinently the relationship between resources and power who

gets what and why Whatever else it aspires to be commonly a place of teaching learning research and public duty a university in an impoverished community is also a rich concentration of resources around which corrupt staff students and those outside of campus all vie for access Taking a political economic approach Jonathan Jansen describes the daily struggle for institutional resources and offers accessible sensible insights He argues that the problem won't be solved through investments in capacity building alone because the combination of institutional capacity and institutional integrity contributes to serial instability in universities Rather durable solutions would include the depoliticisation of university councils and appointments of academics with integrity and capacity to manage and lead these fragile institutions This groundbreaking and long overdue study will offer a promising way forward for universities to better serve their communities and the country more broadly *African Schools as Enabling Spaces* Vanessa Scherman, Linda Liebenberg, 2023-03-31

Using African schools as case studies this book presents an implementation framework that can be used by schools internationally to drive social change and support their role as enabling spaces allowing learners to thrive Recognising the increase in demands violent conflicts lack of stability and social strain prevalent within the current African school system this book covers the challenges that negatively impact children's development by understanding and presenting a framework that ensures a holistic social and educational support system can be created for students Featuring contributions from a broad range of leading scholars the book ultimately addresses the critical need in academic and practice research for the importance of schools in building civil societies Arguing for the importance of schools as places of stability social inclusivity and communities of care this book will have direct relevance to academics researchers and post graduate students in the field of education policy international and comparative education and character education Those working in school leadership management and administration environments will also benefit from this volume **Multinational Interest & Development in Africa** Ilan Bijaoui, 2017-02-17 This book analyzes the current economic situations in African countries at the local regional and national level It examines the growing interest from developed and developing countries to invest in Africa and their different reasons for doing so which aren't always aligned with the interests of African countries Growth in African GDP has benefitted mainly multinational corporations while the rest of the population remains at the subsistence level creating a smaller middle class and less opportunity for local businesses to flourish This book offers potential models of cooperation which could create added value for both African countries and the MNCs investing in them *Buckling* Hein Marais, 2005 *World Library and Information Congress* International Federation of Library Associations and Institutions, 2007 *Fighting Global Neo-Extractivism* Jasper Finkeldey, 2022-08-02 *Fighting Global Neo Extractivism* Fossil Free Social Movements in South Africa analyzes social struggles over damaging new fossil fuel projects in the Global South with a focus on South Africa Africa's biggest fossil fuel emitter Fossil fuel extraction in South Africa has reached a new accelerated phase in which the fossil fuel frontier is moving beyond historical sacrifice zones into non traditional spaces such

as conservation parks and middle class neighbourhoods and provoking fervent opposition from grassroots activists This book examines campaigns such as Frack Free South Africa and Save our iMfolozi Wilderness viewing them as struggles against neo extractivism driven by the state and industry Through a series of detailed case studies it highlights the shaping of mobilisation patterns by prior land use practices and the capacity to mobilize different social groups across race and class Developing the notion of the fossil fuel frontier as the material and political boundary that activists in South Africa and elsewhere in the world render visible this volume provides a theoretical framework to understanding global mobilization patterns This timely and impassioned book will appeal to students and researchers interested in a range of subjects including environmentalism social movements political ecology and development studies *Africa Insight* ,2005 **South African journal of library and information science** ,2006 **Water South Africa** ,2004 **Development and Dreams** Udesb Pillay,Richard Tomlinson,Orli Bass,2009 Development and Dreams The Urban Legacy of the 2010 Football World Cup considers the effects of South Africa s hosting the 2010 FIFA World Cup It is held that here lies the greatest potential benefit of the 2010 World Cup a repudiation of Afro pessimism and an assertion of a contemporary African identity both at home and on a global stage The contributors to this volume both academics and practitioners provide an interdisciplinary perspective on the probable consequences of the World Cup for the economy of South Africa and its cities on infrastructure development and on the projection of African culture and identity Attention is given to a range of topics including the management costs and benefits associated with the 2010 World Cup the uncertain economic and employment benefits venue selection and investment in infrastructure tourism and fan parks The contributors then explore the less tangible hopes dreams and aspirations associated with the 2010 World Cup and interrogate what it means to talk about an African Cup African culture and identity Academics policy makers and the reading public will find this book an invaluable companion as South Africa prepares to host the world s largest sporting event Website [Human Rights Watch](#) ,2007 **Dilemmas of Development** J.
