Represent! Chris Ceraso, Lisa S. Brenner, 2021-03-25 In their expos of Gen Z The New York Times qualified its members as the most diverse generation in American history Recent Broadway hits have found a successful formula in productions showcasing the emotional turmoil of contemporary young people yet the majority of these works represent predominantly white voices both in terms of authorship and representation Non white characters tend to exist only in a world of colorblind casting rather than speaking to their distinct racial and cultural heritage This anthology helps correct that balance and presents a unique offering of plays written for multicultural teenagers by diverse authors who have spent a significant part of their careers working closely with young people in urban settings The playwrights among them award winners such as Chisa Hutchinson and Nilaja Sun have created texts that are dramatic and comic satirical and earnest touchingly real and amusingly surreal Varying in length and format suitable for classrooms and youth groups of all sizes the plays address such themes as ethnic and cultural identity ancestry and assimilation bullying and self empowerment disenfranchisement and alienation parental pressure to over achieve youth activism and community building and the very real perils of daily school life in an era of gun proliferation

Selfie Democracy Elizabeth Losh, 2022-09-06 How politicians digital strategies appeal to the same fantasies of digital connection access and

participation peddled by Silicon Valley Smartphones and other digital devices seem to give us a direct line to politicians But is interacting with presidential tweets really a manifestation of digital democracy In *Selfie Democracy* Elizabeth Losh examines the unintended consequences of politicians digital strategies from the Obama campaign s pioneering construction of an online community to Trump s Twitter dominance She finds that politicians who use digital media appeal to the same fantasies of digital connection access and participation peddled by Silicon Valley Meanwhile smartphones and social media don t enable participatory democracy so much as they incentivize citizens to perform attention getting acts of political expression Losh explores presidential rhetoric casting digital media as tools of democracy describes the conflation of gender and technology that contributed to Hillary Clinton s defeat in 2016 chronicles the Biden campaign s early digital stumbles in 2020 and recounts the TikTok campaign that may have spoiled a Trump rally She shows that although Obama and Trump may seem diametrically opposed in both style and substance they both used mobile digital media in ways that reshaped the presidency and promised a new kind of digital democracy Obama used data and digital media to connect to citizens without intermediaries Trump followed this strategy to its most extreme conclusion What were the January 6 insurrectionists doing as they livestreamed themselves and their cohorts attacking the Capitol but practicing their own brand of selfie democracy
