Freedom of Expression and Social Movements in the Digital Era Elsabet Samuel Tadesse,2025-11-01 The book discusses the 2015 Oromo protest as a social movement that brought about new practices and new actors to the exercise of freedom of expression and information through its use of the Internet as an alternative communication platform and a site of political resistance It is based on empirical data to analyze how collective movements identity politics and the Internet interacted and resulted in government change in contexts where draconian regimes operate and access to the Internet is minimal and expensive The book scrutinizes the genesis and trajectories of the Oromo protest to provide insights into the diffusion of protest tactics learned from other domestic and global movements It also introduces peculiar mass mobilization and communication tactics the Oromo protest utilized to establish a shared vision between the urban digital activists and the rural offline protesters The Politics of Technology in Africa Iginio Gagliardone,2016-11-10 As more Africans get online information and communication technologies ICTs are increasingly hailed for their transformative potential Yet the fascination for the possibilities of promoting more inclusive forms of development in the information age have obfuscated the reality of the complex negotiations among political and economic actors who are seeking to use technology in their competition for power Building on over ten years of research in Ethiopia Iginio Gagliardone investigates the relationship between politics development and technological adoption in Africa s second most populous country and its largest recipient of development aid The emphasis the book places on the technopolitics of ICTs and on their ability to embody and enact political goals offers a strong and empirically grounded counter argument to prevalent approaches to the study of technology and development that can be applied to other cases in Africa and beyond **Document Analysis and Recognition -**

Citizens, Civil Society, and Activism under the EPRDF Regime in Ethiopia Camille Louise Pellerin, Logan Cochrane, 2023-07-15

In 2014 15 the Ethiopian government together with many academics and observers was surprised by the outbreak of anti government protests as large scale public contestation of the Ethiopian People's Revolutionary Democratic Front EPRDF had been largely absent in the regime's history The dominant narrative about the EPRDF regime was that it was a top down government using authoritarian methods to ensure the population abided by its visions and directives and describing its role in paternalistic ways such as being the protector and guardian of the people Changing this narrative *Citizens Civil Society and Activism under the EPRDF Regime in Ethiopia* considers how citizens and civil society expressed their interests and exerted their agency in an authoritarian setting Focusing on the EPRDF regime over a period of three decades up to 2019 the book explores civic activism in Ethiopia presenting diverse examples of how citizens have re shaped the country Challenging state centric readings of state society relations under EPRDF governance this collection provides a counternarrative that emphasizes the role and agency of citizens and civil society The contributing authors draw on a heuristic analytical framework that examines different types of interactions between civil society and state actors co optation co operation coexistence and contestation and captures the ways in which civil society actors make their voices heard At a time when authoritarian forms of governance are increasingly prevalent across the world this critically important collection offers insight into how citizens claim their agency and challenge state power in apparently top down contexts
