Online History Art American R L Wilson:

A Legacy in Arms Richard C. Rattenbury, 2014-10-22 The history of American firearms is inseparable from the history of the United States for firearms have played crucial roles in the nation's founding westward expansion and industrial economic and cultural development This history unfolds in compelling words and images in *A Legacy in Arms* a volume that draws upon the collections of the National Cowboy Western Heritage Museum in Oklahoma City to trace the business and art of gun making from the early national period to the turn of the twentieth century With more than 200 images almost all in full color *A Legacy in Arms* not only documents the inspiration and innovation of arms makers from individual artisans to mass producers but also describes the development of decorative expression in the gun maker's art In an account both entertaining and enlightening Richard C Rattenbury details the development of commercial arms making from the genesis of the Kentucky rifle to the arms of such iconic manufacturers as Colt Remington Smith Wesson Sharps Marlin and Winchester Into this narrative he weaves the particulars of design evolution and the impact of mass production via the American System The accompanying photographs and illustrations stand as eloquent testimony to the range and richness of the gun maker's craft and its rightful place in the story of American industry and culture

Places of Invention Arthur P. Molella, Anna Karvellas, 2015-09-15 The companion book to an upcoming museum exhibition of the same name *Places of Invention* seeks to answer timely questions about the nature of invention and innovation What is it about some places that sparks invention and innovation Is it simply being at the right place at the right time or is it more than that How does place whether physical social or cultural support constrain and shape innovation Why does invention flourish in one spot but struggle in another even very similar location In short Why there Why then *Places of Invention* frames current and historic conversation on the relationship between place and creativity citing extensive scholarship in the area and two decades of investigation and study from the National Museum of American History's Lemelson Center for the Study of Invention and Innovation The book is built around six place case studies Hartford CT late 1800s Hollywood CA 1930s Medical Alley MN 1950s Bronx NY 1970s Silicon Valley CA 1970s 1980s and Fort Collins CO 2010s Interspersed with these case studies are dispatches from three learning labs detailing Smithsonian Affiliate museums work using *Places of Invention* as a model for documenting local invention and innovation Written by exhibition curators each part of the book focuses on the central thesis that invention is everywhere and fueled by unique combinations of creative people ready resources and inspiring surroundings Like the locations it explores *Places of Invention* shows how the history of invention can be a transformative lens for understanding local history and cultivating creativity on scales of place ranging from the personal to the national and beyond
