Captain Stone Liam Sharp, Christina McCormack, 2015-11-04 The world's first and only superhero has disappeared after undergoing a cataclysmic fall from grace in the eyes of the world. Middle-aged and unable to support his operations, he had made a preposterous claim that the world was in danger, a notion derided by the media and the public at large. But what if the claim is true? Gothic Travel through Haunted Landscapes Lucie Armitt, Scott Brewster, 2022-12-06 This book argues that the process and experience of travel in Gothic literature provides a unique and transformative perspective on the relationship between fear and recurring cultural preoccupations from the late eighteenth century to the present, ranging from concerns about climate change or the presence of the unseen to the negotiation of cultural difference and the apprehension produced by various modes of modern transport and unknown, unknowable terrain. The book follows travellers who take many fictional forms: tourists, commuters, walkers, explorers, as well as the armchair tourist or reader, as they encounter fascinating, strange and often disconcerting weathers, climates, landscapes and topographies. Gothic travel epitomises the wonder, excitement, suspicion or incomprehension that arises from journeys through familiar and unfamiliar terrain. While exposure to the wild, elemental or primitive could produce the elevation of the sublime, in early Gothic increasingly the experience of travel raised unsettling questions about people, places and environments that lay beyond established frames of knowledge. Gothic travellers are haunted, never alone, and the experience of journeying through these landscapes provokes fears that may shadow them even after they have returned to home ground. *Climates of Fear* reveals the persistent ways in which Gothic narratives of travel confront fears about the environment, surveillance, immigration and the foreign. These abiding concerns speak loudly to the present time, however, when the encroachments on our immediate surroundings from climate change, digital communication and geopolitical dislocation seem at once remote and intimate, invisible yet urgent. Thus the book also asks whether recent portrayals of Gothic journeys now pose different questions to the reader.
