Children in Mind Jenny Perkel, 2022-04-01 A psychologist's guide for parents care givers and health care practitioners to the emotional challenges facing children and their parents today Current research shows that certain childhood mental disorders are diagnosed more frequently today than in previous generations

Many of today's children and teenagers are more unhappy, anxious and distressed than young people used to be. In this highly informative book, child psychologist Jenny Perkel explores in depth why this might be so, highlighting what modern day South African children and adolescents are experiencing and the environment in which they are being raised. *Children in Mind* presents a broad range of up to date findings from psychological, neurobiological, genetic, psychiatric, sociological and epidemiological research related to the diagnosis and treatment of children's mental health problems. Theoretically informed but not theoretically dense, the book cites both local and international studies to increase awareness and understanding of children's mental health. Perkel discusses a broad spectrum of issues faced by today's children and adolescents: the Covid-19 pandemic, the influence of electronic media, diverse family structures, stress and trauma, and difficult socio-economic circumstances. While offering no easy answers or formulaic solutions to the problems of troubled children, she shows how to think about children's mental well-being in today's South Africa. *Children in Mind* is an invaluable resource for all those who work with troubled children and adolescents: psychologists, social workers, counsellors, educators and parents. The author's informed and compassionate approach will help equip professionals and parents to help young people navigate complex issues and make adjustments in their behavior in order to live more balanced and happier lives. **All the Stars in**

Montana Debra Salonen, 2020-09-21. She's the first woman to tempt him to lower his carefully constructed walls. Aspiring screenwriter Jade McCall looks at every temp job as inspiration for her next screenplay. Her latest boss, nicknamed the Realtor to the Stars, is a sit-com gold, handsome, rich, charismatic and intensely brooding. But it's his intelligence, dry humor and thoughtfulness that reels her in deeper than she's ever been. Mega-successful real estate broker Zachary Masters revels in his prestigious reputation and why not? He wrote his own story and hides the truth of his past behind the glamorous facade of his success. Jade intrigues him from the start and soon he's tempted to take their agreed-upon fling to the next level. But then Jade's career takes off, sending her home to Montana. He thinks he's lost her for good, but the consequences of their brief affair create an unexpected second act. Zach never thought he'd have a shot at a real family until Jade returns with a secret of her own. **Popular Science**, 2007-03. Mhajne, Alexis Henshaw, 2024 *Critical Perspectives on Cybersecurity* offers a new approach to understanding cybersecurity in international relations. As a counterpoint to existing work which focuses largely on the security of states, private actors and infrastructure, chapter authors examine how women and communities across the Global South understand cybersecurity, including what threats and forms of resistance are most important to them. Bringing together contributions from a globally diverse range of authors, Anwar Mahajne and Alexis Henshaw provide a human security perspective on cybersecurity that pays attention to the interplay of race, ethnicity, gender, class and other social hierarchies, especially regarding cybersecurity in the Global South.
