Deepfakes Graham Meikle, 2022-09-22 What happens when we can no longer believe what we see Show the AI technologies that create deepfakes enough images of a celebrity or a politician and they will generate a convincing video in which that person appears to say and do things they have never actually said or done The result is a media environment in which anyone s face and image can be remixed and manipulated Graham Meikle explains how deepfakes synthetic media are made and used From celebrity porn and political satire to movie mash ups and disinformation campaigns this book explores themes of trust and consent as face swapping software becomes more common Meikle argues that deepfake videos allow for a new perspective on the taken for granted nature of contemporary media in which our capacity to remix and share content increasingly conflicts with our capacity to trust The book analyses how such videos deepen the social media environment in which the public and the personal converge and in which all human experience becomes data to be shared Timely clear and accessibly written this is an essential text for students and scholars of media communication cultural studies and sociology as well as general readers

Realistic and Ethical Use of Artificial Intelligence Maggi Savin-Baden, Zak Savin-Baden, 2025-12-08 Current perspectives on artificial intelligence AI tend to focus on the wide parameters between fear and hope Realistic and Ethical Use of Artificial Intelligence provides some ethical hope with realistic solutions It deals with the complexities of AI unpacking specific challenges presented by the AI problem and suggesting what we do about them This book is written by an experienced researcher and a young innovator with expert reflections from researchers and practitioners It promotes

community focused collective values and ethical uses of AI and it challenges ideologies based on capitalist modes of consumption privilege and exploitation Chapters explain current understandings of AI how it has developed since its inception and the various types of AI The text explores issues such as scraping of data privacy unethical corporate practices trust and AI abuse as well as outlining the potential environmental social and psychological impact of AI for better and for worse Discussions across this book are underpinned by both research and media perspectives that introduce concerns and offer suggestions and explanations about ways to use AI in realistic and ethical ways This up to date text is ideal for anyone looking for a deeper understanding of what counts as AI the moral questions troubling both researchers and the general public and how AI can be a fantastic tool if built and used ethically

AI in Social Studies Education Christopher H. Clark, Cathryn van Kessel, 2025 The introduction of widely available generative AI tools has caused a frenzy of both positive and negative reactions Between utopian visions and apocalyptic predictions of AI's impact on education there is a need to thoughtfully consider what education in the age of AI can and should look like This volume focuses on the implications of AI technology for teachers in K 12 and university settings providing a careful look at its affordances and drawbacks for social studies curriculum and teaching Scholars specializing in the field of social studies education provide information and practical ideas for teaching with current technology alongside frameworks for thinking about future iterations of AI This book fills a critical need especially among educators to consider the current and potential future impacts of AI while avoiding the traps of alarmism or techno utopianism Whether skeptical or enthusiastic about AI every social studies educator will find something useful to their practice in this book

Book Features First ever compilation of AI considerations and strategies in the context of social studies education Nontechnical explanations of what AI can do and not do in practical educational contexts to enable educators to approach its use with careful judgment Advice for educators to help them assess future iterations of AI technology Critical considerations of AI across multiple contexts e g ethics equity multilingual learners cybersecurity Work from leaders in technology and social studies education across Canada and the United States
