Netflix Halloween Costumes Update:

Netflix and the Re-invention of Television Mareike Jenner, 2023-09-09 This book deals with the ways Netflix influenced the contemporary television landscape and built the infrastructures of streaming. It focusses on various ways Netflix reconceptualises television as part of the process of TV 4. As television continues to undergo a myriad of changes, Netflix has proven itself to be the dominant force in this development, simultaneously driving a number of these changes and challenging television's existing institutional structures. This comprehensive study explores the pre history of Netflix, the role of binge watching in its organisation and marketing, and Netflix's position as a transnational broadcaster. **Netflix and the Re-invention of Television** illuminates the importance of Netflix's role within the processes of TV 4. This Second Edition highlights the role Netflix plays in the so-called streaming wars and incorporates recent research in television studies. It also re-evaluates the company's incorporation of issues of diversity in its focus on middlebrow television. The book also includes a new chapter on the transnational streaming franchise networks of texts developed internal to platforms to build infrastructures of transnational streaming.

The Business of Television Ken Basin, 2024-09-19 In this expanded and updated second edition, esteemed television executive and Harvard lecturer Ken Basin offers a comprehensive and readable overview of the business, financial, and legal structure of the U.S. television industry, as well as its deal-making norms. **The Business of Television** explores the basic structure and recent history of the television and streaming business, rights and talent negotiations, intellectual property, backend deals, licensing, international production, and much more. This expanded and updated second edition also features an in-depth exploration of the evolution of the streaming business, offers valuable new insights about negotiation, reflects the historic impacts of the 2020 Covid-19 pandemic and 2023 WGA and SAG-AFTRA strikes, addresses the intersection of artificial intelligence technology and intellectual property law, and provides a greater breadth and depth of technical material about a wide variety of common television deals. The book also includes breakdowns after each chapter summarizing major deal terms and points of negotiation, a significantly expanded glossary, an extensive list of referenced articles and cases, and a wealth of real-world examples to help readers put the material into context. Written for a diverse audience of working or aspiring creative professionals, executives, agents, managers, lawyers, and students, **The Business of Television** is the definitive reference guide for the ever-changing television industry.
