Miller, Karl Zinsmeister, Ashley May, 2015-03-07 Donating money to modify public thinking and government policy has now taken its place next to service centered giving as a constructive branch of philanthropy Many donors now view public policy reform as a necessary adjunct to their efforts to improve lives directly This is perhaps inevitable given the mushrooming presence of government in our lives In 1930 just 12 percent of U S GDP was consumed by government by 2012 that had tripled to 36 percent Unless and until that expansion of the state reverses it is unrealistic to expect the philanthropic sector to stop trying to have a say in public policies Sometimes it s not enough to build a house of worship one must create policies that make it possible for people to practice their faith freely within society Sometimes it s not enough to pay for a scholarship one must change laws so that high quality schools exist for scholarship recipients to take advantage of Yet public policy philanthropy has special ways of mystifying and frustrating practitioners It requires understanding of governmental practice interpretation of human nature and some philosophical perspective Public policy philanthropists may encounter opponents operating from different principles who view them as outright enemies Moreover public policy struggles never seem to end victories one year become defeats the next followed by comebacks then setbacks and on and on This book was written to help donors navigate all of those obstacles It draws on deep history and rich interviews with the very best practitioners of public policy philanthropy in America today Whatever your aspirations for U S society and governance this guide will help you find the best ways to make a difference **NIH Guide for Grants and Contracts** National Institutes of Health (U.S.), 1990 **A Simple Guide to Getting an Athletic Scholarship** Gary Hiles, 2011-02 If you need to find an athletic scholarship this book will provide the help you need The author teaches parents and athletes the basics of how to get athletes noticed by college coaches and how to find thousands of dollars in athletic scholarships He also teaches them how to avoid unnecessary expenses during the process The book tells how to avoid common mistakes such as parents waiting too late to start the scholarship search process and encourages parents to hedge their bets and not limit their options before receiving an offer Parents looking for detailed ways to help their athletically talented child will find them whether it s how to create mailing lists keep accurate records contact coaches or work with a coaching staff The author includes some of his more than 100 success stories His methods are proven and have worked for him many times and they will work for you too I highly recommend this book to any parent who wants his or her child to better themselves with an athletic scholarship Read the book and use it for it works Ralph Davis Mr Kentucky Basketball and starting guard with the University of Cincinnati Bearcats 1957 1960 and Guard for the Chicago Packers NBA 1960 1962 Author Gary Hiles a parent has spent his entire adult life helping young people He served as a career counselor when he was a professional in the computer industry and spent time advising college students and young adults who were interested in pursuing careers in that industry Gary and his wife
