The digital revolution fundamentally changed how cultural heritage is created, documented, analyzed, and preserved. The book focuses on this transformation's impact. How must museums and archives meet the challenges of digitally generated cultures and how does the digital revolution influence traditional object collection, research, and education? How do digital technologies and digital art and culture affect our interaction with images? Leading international experts from various disciplines break new ground. Pioneering interdisciplinary research results collected in this book are relevant to education, curators, and archivists in the arts and culture sector and in the digital humanities.

Applied Mass Communication Theory Jack Rosenberry, Lauren A. Vicker, 2021-09-30
Now in its third edition, this dynamic textbook blends coverage of the major theories and research methods in mass communication to enable students to apply their knowledge in today's media and communication careers. Maintaining a focus on modern professional application throughout, this text provides chronological coverage of the development and use of major theories, an overview of both quantitative and qualitative research methods, and a step-by-step guide to conducting a research project informed by this knowledge. It helps students bridge their academic coursework with professional contexts, including public relations, advertising, and digital media contexts. It provides breakout boxes with definitions of key terms and theories, extended applied examples, and graphical models of key theories to offer a visualization of how the various concepts in the theory fit together. Applied Mass Communication Theory's hybrid and flexible nature make it a useful textbook for both introductory and capstone courses on mass communication and media theory and research methods, as well as courses focused on media industries and professional skills. Instructors can access an online instructor's manual, including sample exercises, test questions, and a syllabus at www.routledge.com/9780367630362.

Learning English as a Foreign Language for Deaf and Hard of Hearing Learners Ewa Domagała-Zyśk, Jitka Sedláčková, Lenka Tóthová, 2025-11-17
This important volume represents one of the first book-length publications to explore the styles and strategies that can be used by deaf and hard of hearing learners when learning English as a foreign language, highlighting unique pedagogical approaches, learning styles, and strategic interventions. Delving into specific challenges that deaf and hard of hearing students encounter in language acquisition, including difficulties with reading, writing, speaking, and auditory processing, the book presents key findings which underscore the necessity of specialised tools and strategies helping educators design more inclusive and effective instructional approaches. By presenting diagnostic insights and practical recommendations around the use of sign language, novel questionnaires, and learning preferences, the book provides a comprehensive framework for understanding and supporting deaf and hard of hearing students' foreign language learning journey, ultimately promoting greater educational equity and linguistic accessibility. Supporting educators in tackling not only linguistic challenges but also motivational and communication barriers facing deaf and hard of hearing students, this book will be a vital resource for scholars, educators, and professionals working with deaf and hard of hearing learners, as well as
