Tax Bracket Goodreads Choice Today

Jonathan Lipow

Tax Bracket Goodreads Choice Today:

Public Policy for Progressives Jonathan Lipow, 2023-11-25 The purpose of this book is to offer those who identify with America's democratic political left broadly defined to include Democrats Democratic Socialists Greens Libertarians and even liberal Republicans a guide to understanding how rigorous analysis can be applied in order to identify public policies that are both consistent with their values and likely to actually work The book argues the importance of reference to basic scientific principles in particular social science and economic principles and factual evidence for people who identify with the political left rather than them assuming automatic positions on issues Foundational scientific principles such as general equilibrium Keynesian economics asymmetric information the use of proxy variables and causal inference are discussed and explained The book consists of 12 chapters Following two foundational chapters the book addresses areas including monetary policy income redistribution healthcare social security education immigration climate change the proper roles of the public and private sectors of the economy and race relations Written in accessible engaging and non technical language *Public Policy for Progressives* will be of interest to scholars and students of economics philosophy political science and public policy as well as policy makers themselves

Climate Change is an Opportunity David Blockley, 2024-02-05 We have an imperative as never before to change our ways Climate change is presenting the entire human race with its greatest ever existential challenge Like many I feel a growing sense of looming disaster Yes we are making some progress but past agreements are not delivering In this book I put a case for a new form of principled capitalism based on moral principles rather than utility and profit I propose ten pillars that include systems thinking as citizens of the world and embracing Modern Monetary theory to guide decisions about macroeconomics and national debt
