is a topic generating intense interest Companies all over the world are trying to upend their industry through innovative products and services Becoming a disruptive organization however is easier said than done Even more difficult is being a company that continually disrupts Is it possible to discern a code for how companies can achieve this In this highly readable

and engaging book a disruptive leadership framework is proposed in which caring deeply is placed at the center of the model. By turning care into a focal point a triphasic model is proposed that moves from the personal sphere individual to the corporate arena organizational and then to the global stage impact. Nine keys are identified along this path for how companies can realize organizational excellence. While care may seem like a soft concept in the rough and tumble world of business it is argued how it is actually an inspired manner for providing direction structure and know how that leads to powerful outcomes. Apple is profiled as a leading example of leveraging what is termed the technology of caring deeply. Other companies such as Nike IKEA Zappos Starbucks are also profiled. Finally a leadership canvas is provided to help activate the lessons shared in the book.

The Seven P's of the Apple Watch's Marketing-Mix Santiago Mas, 2018-08-22 Research Paper undergraduate from the year 2016 in the subject Business economics Offline Marketing and Online Marketing grade 1 3 University of Applied Sciences Essen course Master of Business Administration MBA language English abstract

After setting marketing objectives and marketing strategies the Marketing Mix represents the third and last level of planning in the marketing conception. Therefore once the market for the Apple Watch has already been defined and correspondingly analyzed the next step will be to review what the different elements of the Apple Watch Marketing Mix are and how they interact with each other. The interaction among them shows clearly how changes and decisions made which affect to one specific area of a product's Marketing Mix produce different changes and up to what extent in the rest of the elements, demonstrating that they cannot be seen considered or analyzed separately but as a whole. It is clear then that only by approaching the Apple Watch Marketing Mix as a whole in which each part is irreplaceable and subordinated to Apple's marketing strategy can be obtained a complete view of the level of efficiency they achieve when exploiting the two Unique Selling Propositions already stated in the conclusions of the first assignment.
