Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is meal prepping a meal or recipe then portioning it out to grab and go meals for later If you've ever kept your leftovers from dinner to take with you for lunch then next day then you've learned mini meal prepped Get it though meal prepping refers to preparing 3-7 days worth of food at a time Think of it like keeping your lunches for the week all at once instead of keeping your lunch for the week You can use this same technique for breakfast lunch dinner and snacks Meal prepping prevents food waste and reduces time to eat outside your home whether you plan ahead or a budget When keeping your meal plan for the week you'll eat healthy meals without having to do it each day to reduce time Meal prepping is not for everyone It is good for those who value convenience and often more than anything else With meal prepping you'll eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping isn't for you If having nutritious food while maximizing your time and budget is more valuable to you than eating something different every day meal prepping is your ticket I've generally not seen meal prepping for the individual or maybe one other person do a whole meal Meal prepping for a whole family would be quite difficult but the result would be a meal plan that is stored in the refrigerator for a slow day in the week In addition to the way food is packed the individual nuances of your refrigerator can impact the health of your refrigerated meal So the food is acceptable having the texture and flavor will be up to the eater Always begin with the refrigerator guidelines to be the FDA and then evaluate them against your own preferences In general I don't think more than a few days worth of food would be a bad idea but that's just my opinion
