Achievements, Milestones and Challenges in Biomedical and Health Informatics Arie Hasman, Reinhold Haux, 2022-11-15 The technological advances in Biomedical and Health Informatics BMHI in the last 4 decades could barely have been imagined when the field was in its infancy At the time computers were large and unwieldy memory was measured in kilobytes and the Internet was accessible only to people in the technology professions How the world has changed The skills of BMHI are now essential for everyone who participates in healthcare from practitioners and researchers to administrators and patients This book presents the 17 accepted papers of the International Symposium on Achievements Milestones and Challenges in Biomedical and Health Informatics BMHI held in Athens Greece on 29 October 2022 This event marks the retirement of Professor John Mantas whose career in BMHI spans over 40 years and a number of eminent colleagues from around the world were invited to present original review papers in their respective domains not only to celebrate the work of Professor Mantas but to review the achievements milestones and challenges of BMHI Most of those presenting papers have worked in the field for decades and their collective experience and wisdom highlights the accomplishments and limitations of the field Each paper was peer reviewed by 3 independent reviewers before being thoroughly revised ensuring the high quality of the accepted papers The book is dedicated to the entire BMHI community It covers the achievements attained the milestones reached and the challenges which have been overcome or which have not been conquered and provides knowledge and perspective for both learners and practitioners in the field

Health Information Science Zhisheng Huang, Siuly Siuly, Hua Wang, Rui Zhou, Yanchun Zhang, 2020-10-16 This book constitutes the proceedings of the 9th International Conference on Health Information Science HIS 2020 which took place in Amsterdam The Netherlands during October 20-23 2020 The 11 full papers and 6 short papers presented in this volume were carefully reviewed and selected from 62 submissions They were organized in topical sections named mental health medical record

processing medical information systems medical diagnosis with machine learning and health behavior and medication

The Great Indoors Emily Anthes, 2020-06-23 An Architectural Record Notable Book A fascinating thought provoking journey into our built environment Modern humans are an indoor species We spend 90 percent of our time inside shuttling between homes and offices schools and stores restaurants and gyms And yet in many ways the indoor world remains unexplored territory For all the time we spend inside buildings we rarely stop to consider How do these spaces affect our mental and physical well being Our thoughts feelings and behaviors Our productivity performance and relationships In this wide ranging character driven book science journalist Emily Anthes takes us on an adventure into the buildings in which we spend our days exploring the profound and sometimes unexpected ways that they shape our lives Drawing on cutting edge research she probes the pain killing power of a well placed window and examines how the right office layout can expand our social networks She investigates how room temperature regulates our cognitive performance how the microbes hiding in our homes influence our immune systems and how cafeteria design affects what and how much we eat Along the way Anthes takes readers into an operating room designed to minimize medical errors a school designed to boost students physical fitness and a prison designed to support inmates psychological needs And she previews the homes of the future from the high tech houses that could monitor our health to the 3D printed structures that might allow us to live on the Moon The Great Indoors provides a fresh perspective on our most familiar surroundings and a new understanding of the power of architecture and design It s an argument for thoughtful interventions into the built environment and a story about how to build a better world one room at a time
