in Readers' Advisory Cynthia Orr, 2014-12-05 One of the key services librarians provide is helping readers find books they'll enjoy. This crash course will furnish you with the basic practical information you need to excel at readers advisory RA for adults and teens. The question can you recommend a good book can be one of the most daunting you face notwithstanding the fact that recommender tools are ubiquitous. Often uncertainty arises because although librarians are called on to perform such services daily, readers advisory is a skill set in which most have no formal training. This guide will remedy that. It is built around understanding books, reading and readers and will quickly show you how to identify reading preferences and advise patrons effectively. You'll learn about multiple RA approaches such as genre appeal, features and reading interests and about essential tools that can help with RA. Plus you'll discover tips to help you keep up with this ever-changing field. There is no other professional book that covers the full spectrum of skills needed to perform the RA service that is in such great demand in libraries of all kinds. Helping readers find what they want is a sure way to serve patrons and build your library's brand. You will come away from this easy-to-understand crash course with the solid background you need to do both. Literature and Social Media Bronwen Thomas, 2020-01-31 From Instapoetry to BookTube, contemporary literary cultures and practices are increasingly intertwined with social media. In this lively and wide-ranging study, Bronwen Thomas explores how social media provides new ways of connecting with and rediscovering established literary works and authors while also facilitating the emergence of unique and distinctive forms of creative expression. The book takes a 360° approach to the subject, combining analysis of current forms and practices with an examination of how social media fosters ongoing collaborative discourse amongst both informal and formal literary networks and demonstrating how the participatory practices of social media have the potential to radically transform how literature is produced, shared and circulated. The first study of its kind to focus specifically on social media, Literature and Social Media provides a timely and engaging account of the state of the art while interrogating the rhetoric that so often accompanies discussion of the new in this context. 21st Century US Historical Fiction Ruth Maxey, 2020-07-17 This new collection examines important US historical fiction published since 2000. Exploring historical novels by established American writers such as Philip Roth, Joyce Carol Oates, E. L. Doctorow, Chang-rae Lee, James McBride, Susan Choi and George Saunders, the book also includes chapters on first-time novelists. Individual essays in 21st Century US Historical Fiction: Contemporary Responses to the Past tackle prominent and provocative new novels, for example recent Pulitzer Prize-winning fiction by Anthony Doerr, Viet Thanh Nguyen and Colson Whitehead. Interrogating such key themes as war, race, sexuality, trauma and childhood, notions of genre and periodization and recent theorizations of historical fiction, scholars from the United States, Canada, Britain and Ireland analyze an emerging canon of contemporary historical fiction by an ethnically diverse range of major American writers. **The Newbie Author's Survival Guide** A.K.
