The US Revenue Implications of President Trump's 2025 Tariffs Warwick McKibbin,Geoffrey Shuetrim,2025-04-22 President Donald Trump s tariffs could generate trillions of dollars in new federal government revenue over a decade but the net gain would be reduced by their effects on the US economy and other economies likely retaliation The Peterson Institute for International Economics has no partisan goal in publishing this research Our objective is to educate policymakers and the public about the effects these policies would have on Americans and other people around the world

Autumn Glory Louis P. Masur,2004-10-01 A suspenseful account of the glorious days more than a century ago when our national madness began the first Major League Baseball World Series A post season series of games to establish supremacy in the major leagues was not inevitable in the baseball world But in 1903 the owner of the Pittsburgh Pirates in the well established National League challenged the Boston Americans in the upstart American League to a play off which he was sure his team would win They didn t and that wasn t the only surprise during what became the

first World Series In Autumn Glory Louis P Masur tells the riveting story of two agonizing weeks in which the stars blew it unknown players stole the show hysterical fans got into the act and umpires had to hold on for dear life Before and even during the 1903 season it had seemed that baseball might succumb to the forces that had been splintering the sport for decades owners greed players rowdyism fans unrest Yet baseball prevailed and Masur tells the equally dramatic story of how it did so in a country preoccupied with labor strife and big business ruthlessness and anxious about the welfare of those crowding into cities such as Pittsburgh and Boston which in themselves offered competing versions of the American dream His colorful history of how the first World Series consolidated baseball's hold on the American imagination makes us see what one sportswriter meant when he wrote at the time Baseball is the melting pot at a boil the most democratic sport in the world All in all Masur believes it still is *Monthly Catalog of United States Government Publications*, 2001 Digital Games eBook

about the Great War Martin C. Kerby,Denise Burkhard,Alison Bedford,Marion Gymnich,Margaret M. Baguley,2025-09-30 This book is grounded in the belief that every nation had its own Great War and that children s picture books are an important barometer of each country s national approach To explore the depiction of the Great War in modern Australian British and French children s picture books where this historical event is reimagined in different ways as a futile conflict as a painful victory and as part of one country s founding mythology this book uses the concept of the hero s journey as an underlying framework It claims that this monomythic pattern as developed by Joseph Campbell and modified by Christopher Vogler not only informs all picture books selected for this project but can also be used to highlight the extent to which modern children s picture book authors and illustrators conform to their respective nation s cultural memory It further maintains that the specific historical context of the Great War in these children s picture books can be used to identify a variant of the hero s journey the ordinary soldier s journey This analysis of children s picture books about the Great War through the lens of Campbell s hero s journey will be of interest to both students and researchers in the fields of children s literature literary theory history cultural studies and education **All In** Jonathan Grotenstein,Storms Reback,2006-09-19

All In is the story of the greatest tournament in the world the World Series of Poker It began in 1970 as a mere gathering of Texas road gamblers who rendezvoused at Binion s Horseshoe in downtown Las Vegas each spring Today it has become a cultural phenomenon attracting exhaustive national television coverage legions of fans and thousands of players from legendary professionals to amateurs with little experience outside of their home games And with good reason The prize money for the 2005 tournament was more than the purses of the Masters the Kentucky Derby and Wimbledon combined Professional poker players themselves authors Jonathan Grotenstein and Storms Reback combine interviews firsthand accounts and extensive archival research into a comprehensive and highly entertaining look at this incredibly unique

experience recounting its history through the breathtaking and sometimes brutal hands played at the Horseshoe's tables. They introduce colorful and seemingly fearless characters who over the tournament's thirty-five year history have been lured by huge paydays and the chance to play against the best in the world including the legends. Veteran road gamblers like Doyle Brunson and Amarillo Slim whose success at the tables helped push poker into the national spotlight. The troubled poker savant Stu "The Kid" Ungar who would eclipse his unlikely debut at the World Series with an even more improbable comeback. And many others like Poker Brat Phil Hellmuth who proved that you didn't need to be old or from Texas to master the game and Chris "MoneyMaker" the man with the impossible name who parlayed 40 into 2.5 million. All In is a no-limit look at the phenomenal transformation of poker from a vice hidden in shady back rooms into the hottest game on the planet. Where some of the World Series's simple charms have been lost, they have been replaced by a complicated human drama huge in scope where luck and skill forge an exciting and unpredictable intersection. Simply put, there is nothing else like it in the world. If my old pal Benny Binion were still with us, he'd wet his britches seeing that his little publicity stunt in 1970 between a few Texans became a tournament with over 25 million in prize money. If you've ever played a hand of Texas Hold'em, you won't want to miss this book. Amarillo Slim, Preston 1972 World Series of Poker champion and author of *Amarillo Slim in a World Full of Fat People*. Reading this book is like having Johnny Moss, Doyle Brunson, Amarillo Slim, and every single one of the World Series of Poker champions over to the house for dinner, a beer, tall tales, and a fine game of No Limit Texas Hold'em. Phil Gordon, coauthor of *Poker: The Real Deal* and cohost of *Celebrity Poker Showdown*. *Japan's Household Savings Rate*, International Monetary Fund, 1987-01-01. This paper develops and tests a model of Japan's household savings rate based on the life cycle hypothesis that the primary motive for savings is provision for retirement. The paper shows that Japan's high household savings rate in recent decades reflects the positive influence of rapid economic growth leading to a prolonged retirement period through the wealth and life expectancy effects of an income change which has initially outweighed the negative combined influence of improvements in public pension benefits and the aging of the population. It projects that the savings rate will decline substantially in coming decades as the negative influence accelerates. [The Migration Conference 2025 Selected Papers](#) Ülkü Sezgi Sözen, İbrahim Sirkeci, 2025-10-21. The 13th edition of The Migration Conference hosted by the University of Greenwich in London, UK, in June 2025 once again served as a vital global forum for migration studies. As the executive team members of the conference, we are pleased to confirm that nearly 100 parallel sessions took place. In this selection of papers, we present over 60 concise research contributions that collectively offer a vivid if often sobering portrait of contemporary global human mobility. The papers featured herein reaffirm that migration is the defining phenomenon of our era, fundamentally reshaping societies, economies, and legal systems. What emerges most prominently is the growing tension between the legal and policy frameworks designed to regulate mobility and the complex, often spontaneous realities of migrants' lived experiences. Spanning from Chile to China and Japan to Iceland, the scholarship engaged here confronts this

tension directly calling for a multidisciplinary approach that moves beyond single lens analysis Technical guide for the Adaptation, Biodiversity and Carbon Mapping Tool Food and Agriculture Organization of the United Nations, Dionisio, D.; Audebert, P.; Schiettecatte, L.S.; Sinitambirivoutin, M.; Brierley, I.; Mitamura, S.; Tribalet, C.; Bernoux, M., This updated technical guide for ABC Map the Adaptation Biodiversity and Carbon Mapping Tool provides an overview of ABC Map including the methodologies and data sources it utilizes This third edition of the Technical Guide for the Adaptation Biodiversity and Carbon Mapping Tool presents an updated comprehensive user friendly resource which provides i an overview of ABC Map including its purpose required inputs and expected outputs ii details on the indicators that make up ABC Map their methodologies and sources and iii details on the overarching methodologies common to multiple indicators Developed by FAO and IFAD ABC Map is a geospatial tool which enables users to assess synergies and trade offs across climate adaptation biodiversity and carbon dynamics in the agriculture forestry and other land use AFOLU sector Users may include but are not limited to project designers and managers departments or agencies supporting climate environment and agriculture sectors agricultural public development banks planners and focal points in governments in relevant units and farmer organizations Importantly users do not need to have prior knowledge or experience of geographic information systems GIS or remote sensing to use the tool ABC Map is available online at abc-map.fao.org **Trade and Investment in Africa** Benedict Okey Oramah, Oyeyemi Kale, 2025-12-23 This edited volume provides coverage of international trade and investment in Africa Trade and investment are crucial to promoting economic growth and development and have important policy implications for governments and other stakeholders in economies of the global South The book offers an extensive examination of critical issues in trade and investment encompassing a wide range of areas such as trade policy and development international trade investment and economic growth finance payment systems and trade development as well as contemporary issues in international trade It focuses on emerging cutting edge research on the broad areas of trade and investment contributes significantly to contemporary literature and informs policy design in these areas This distinctive topical and accessible work is intended for a wide range of readers interested in international trade and investment including policymakers practitioners academics researchers and students at all levels studying international trade economics and finance Overall it serves as a valuable resource for anyone seeking to deepen their knowledge and understanding of international trade investment and economic development in today's complex and rapidly changing global economy

Climate Change, Human Security and Violent Conflict Jürgen Scheffran, Michael Brzoska, Hans Günter Brauch, Peter Michael Link, Janpeter Schilling, 2012-05-26 Severe droughts damaging floods and mass migration Climate change is becoming a focal point for security and conflict research and a challenge for the world's governance structures But how severe are the security risks and conflict potentials of climate change Could global warming trigger a sequence of events leading to economic decline social unrest and political instability What are the causal relationships between resource scarcity
