Declining all film and TV adaptation offers until the series end Sofie is primed to become a worldwide phenomenon as the tenth and final book is set to debut after the annual romance readers convention takes place in Chicago next week. As buzz continues to build toward the book's release Sofie is asked to headline the event for the first time. It's a career milestone. One she won't let anyone take from her especially the next Sofie Wilde. That's what they're calling her. Hartley West the self-published debut author who writes in the style of Sofie Wilde. Except she doesn't actually write anything. After Hartley admits to having used AI to create her novel plugging in Sofie's name as the prompt Sofie's ready to watch Hartley be skewered on social media.

Except in this unpredictable world Hartley is instead lauded for being innovative for being such a skilled editor to take what the AI churned out and massage it into a story that's just as compelling as Sofie's maybe even more so. After her unhinged rant unintentionally goes viral, Sofie loses her keynote and she's starting to lose all her support. That loss is Hartley's gain as her book sales start soaring; she's given the headliner spot. Sofie is livid. And she's not the only one. As the convention begins, Sofie is surrounded by her fellow authors who also fear for their futures, their livelihoods, their art being stripped away. One AI prompt at a time. Something must be done. This has to be stopped. Now. With the clock ticking down to Hartley's keynote, Sofie enlists her fellow authors in a plan to stop Hartley vowing "The next Sofie Wilde over my dead body. Or hers."

The computer finds itself caught up in the trappings of love that can't be solved by equations or reason. Can a computer be capable of love? Is the world ready for AI? Is AI ready for the world? 2 **Solstice** Sophia Watson, 2017-12-22 Jake Wheeler has been a major cyber criminal, a teenage genius and computer prodigy, a hacker and Darknet webhost, the victim of a copter crash on the cliffs of Scottish Highlands, honorary member of Anonymous, an FBI fugitive, and then finally an FBI informant. Literally, life has driven Jacob Wheeler to ground level. A year ago, See Snow Angels or No Angels Book 2, Jake lost altitude off the cliffs of one of the Hebrides islands, possibly the Isle of Lewis. A ferocious wind storm knocked his personal helicopter into the very edge of a cliff. He teetered there until he managed to escape with his survival backpack and a bottle of Glenlivet whiskey. He was to need both. Jake had begun life as a lonely boy, small for his age. He was a little socially inept and knew it. He had taken solace in his computers and online reputation from a very early age. He was bullied in school to the point that it made him a little callus as an adult. This was about to change. And change for the good if he could help it. Travel with us again to the Outer Hebrides of Scotland to find out why the politico hacker organization Anonymous elicits Jake Wheeler's aid and the dangerous path he must follow. This is the second book in our international Cyber Crime mini series. Snow Angels is the first.
