My Windows 8 Computer for Seniors Michael Miller, 2013 Easy clear readable and focused on what you want to do Step by step instructions for the tasks you care about most Large full color close up photos show you exactly what to do Common sense help whenever you run into problems Tips and notes to help you do even more Over the years you ve learned a lot Now learn Windows 8 We ve identified the Windows 8 skills you need to stay connected with people you care about keep your computer reliable productive and safe express your creativity find new passions and live a better life Our crystal clear instructions respect your smarts but never assume you re an expert Big colorful photos on nearly every page make this book incredibly easy to read and use Set up your computer with no fuss or aggravation Get productive fast even if you don t have computer experience Use the new touch features of Windows 8 if you have a touchscreen device Safeguard your privacy and protect yourself from online scams Display up to the minute news weather and stock prices Browse and search the Web wherever you go Find reliable health information online Make Skype video calls to friends and family Use Facebook to find old friends and see what they re up to Store your pictures and share them with loved ones Read eBooks on your PC even enlarge text for greater comfort Watch TV or movies with Netflix Hulu Plus or YouTube Enjoy your music and discover great music you ve never heard Fix your own computer problems without help Global Meets Digital Vinod Jain, 2023-06-02 The world today is at the intersection of two megatrends Globalization and Digitalization a business revolution unfolding in real time Global Meets Digital captures the many nuances of this revolution succinctly including its impact on our lives and business An immediate implication of this revolution is that the economic principles that underpinned business and strategy for hundreds of years such as diminishing returns to scale and resource scarcity are no longer valid for a large and growing number of products and services The book will challenge you to think differently not just about digital products but also

about physical products In the global digital world products are of three kinds physical digital and smart machines products that are both physical and digital and connected to the internet a distinction missed by most books on strategy and global business The economics of each kind of products is distinct from that of the others which has strategic implications for all kinds of businesses implications such as how to compete and how to create and capture value With several mini case studies and over 100 company examples the book covers themes and cutting edge issues like the paradox of globalization digital disruption disruptive business models exponential technologies Internet of Things competition in digital markets winner take all market dynamics Industry 4.0 how to innovate strategizing for the New Normal and value creation and value capture in both B2C and B2B contexts The book derives its underpinnings from the practice of global and digital business while theory remains in the background Intended specifically for an executive professional audience Global Meets Digital should also be of value to business students and professors learning to dip their toes into a digital world Vinod Jain is an expert in global and digital strategy award winning professor Fulbright Scholar and author of an MBA textbook Global Strategy He taught at the Rutgers Business School Newark and New Brunswick and the Robert H Smith School of Business University of Maryland College Park At Maryland he was also the Founding Director of the federally funded Center for International Business Education and Research and Academic Director of Smith School's Executive MBA program in China Since leaving Maryland he has taught in China Denmark Finland Poland and India as a visiting or term professor His opinion pieces have appeared in The Washington Post The Baltimore Sun Mensa Bulletin and Economic Times and Mint India's 1 and 2 business dailies among other media In the past he worked as a middle and senior level executive with American and British multinationals Vinod has a PhD in Strategy and International Business from the University of Maryland College Park MS in Management from UCLA and MS and BS Hons in Statistics from the Indian Statistical Institute Calcutta

Digital Rights Management

Catherine A. Lemmer, Carla P. Wale, 2016-09-02 In a world of users that routinely click I Agree buttons librarians may be the lone voice raising an alert to the privacy use and ownership issues arising in connection with the design and implementation of digital rights management DRM technologies DRM reflects the efforts of copyright owners to prevent the illegal distribution of copyrighted material an admirable goal on its face A common misunderstanding is that DRM is copyright law It is not Rather it is a method of preventing copyright infringement however if unchecked DRM has the potential to violate privacy limit ownership rights and undermine the delicate balance of rights and policies established by our current system of copyright All three of these arenas are critical for both librarians and their users Reflecting the shift from ownership to access libraries are increasingly providing access to rights protected digital content Libraries strive to provide access to rights protected content in a manner that protects both the content creator and the privacy of the user DRM encompasses a variety of technologies and strategies utilized by content owners and managers to limit access to and the use of rights protected content Librarians need to understand DRM to effectively enable users to access and use rights protected digital

content while at the same time protecting the privacy of the user Designed to address the practical operational and planning issues related to DRM this guide explores the critical issues and challenges faced by librarians After reading it librarians will better understand the digital content rights protection scheme the various DRM technologies and how they are used how to use authentication and authorization standards strategies and technologies and the privacy and security issues related to DRM Edited by two librarians who also hold law degrees this is a best practices guide for front line librarians on how to best respond to the impact of DRM schemes on collection development staffing budget service and other library concerns

Creators Take Control Edward Lee,2023-03-28 A leading legal scholar offers a compelling new theory to explain the meteoric rise of non fungible tokens NFTs and their impact on art business entertainment and society and explains how they are revolutionizing our understanding of ownership If you buy an NFT do you own anything Critics say no Then why are people spending so much money to own them to the tune of 27 billion in 2021 And why are big businesses and venture capital firms investing hundreds of millions to develop NFTs for people s use in the metaverse a purely imaginary world In **Creators Take Control** Edward Lee offers a compelling new theory he calls Tokenism that answers these perplexing questions Using vivid examples Lee lucidly explains how NFTs operate and how they fundamentally change our understanding of ownership Tokenism is an artistic cultural and technological movement that creates value in a new kind of ownership of a new type of property symbolized by a virtual token through a process of technological abstraction and artificial scarcity effectuated by NFTs Ownership becomes virtual What Cubism did in radically changing the twentieth century perspective of creating and viewing art through cubes Tokenism does today in altering our perspective of owning art and other things

through tokens Both movements radically reimagine what's possible Creators and businesses have seized upon this profound transformation In a short time they have developed a new market for digital art important new rights for creators innovative business models based on decentralized collaboration and a new type of interactive ownership that enables identity community and patronage through NFTs These innovations are just the start of revolutionary changes to society Lee shows how NFTs create a new form of decentralized intellectual property or De IP Comparable to the movement to decentralized finance DeFi De IP empowers creators to take control of their artistic productions and livelihood Lee's intellectual tour de force is filled with practical insights and hope for fostering creativity and a Virtual Renaissance for the ages
