

SNAPCHAT STREAKS

THE SECRET TO KEEPING YOUR FRIENDSHIP ALIVE

Definition: A Snapchat streak is a feature that tracks how many consecutive days two users have sent snaps to each other. To maintain a streak, both users must send a snap to each other within a 24-hour period.

Purposes

Snapchat streaks are a way to keep the conversation going between friends and to maintain a sense of connection, especially for those who may not see each other in person often. They can also be a fun challenge to see how long a streak can last.

Fun Facts

- The longest Snapchat streak on record is over 1,000 days.
- Some people have created fake Snapchat accounts just to keep their streaks going.
- Snapchat streaks have become so popular that they have been referenced in TV shows and movies, including the Netflix series "Atypical."

Snapchat streaks may seem like a small feature, but they have become a big part of our social lives. So, the next time you see that fire emoji next to your friend's name, you'll know that your friendship is still going strong!
