Middle Class Shanghai Cheng Li, 2021-05-11 The United States may be headed toward a disastrous conflict with China unless Washington updates its understanding of contemporary Chinese society After four decades of engagement the United States and China now appear to be locked on a collision course that has already fomented a trade war seems likely to produce a new cold war and could even result in dangerous military conflict The current deterioration of the bilateral relationship is the culmination of years of disputes disillusionment disappointment and distrust between the two countries Washington has legitimate concerns about Beijing's excessive domestic political control and aggressive foreign policy stances just as Chinese leaders believe the United States still has futile designs on blocking their country's inevitable rise to great power status Cheng Li's Middle Class Shanghai argues that American policymakers must not lose sight of the expansive dynamism and diversity in present day China The caricature of the PRC as a monolithic Communist apparatus set on exporting its ideology and development model is simplistic and misguided Drawing on empirical research in the realms of higher education avant garde art architecture and law this unique study highlights the strong constructive impact of bilateral exchanges Combining eclectic human stories with striking new data analysis this book addresses the possibility that the development of China's class structure and cosmopolitan culture exemplified and led by Shanghai could provide a force for reshaping U S China engagement Both countries should build upon the deep cultural and educational exchanges that have bound them together for decades The author concludes that U S policymakers should neither underestimate the role and strength of the Chinese middle class nor ostracize or alienate this force with policies that push it toward jingoistic nationalism to the detriment of both countries and the global community With its unique focus this book will enlighten policymakers scholars business leaders and anyone interested in China and its increasingly fraught relations with the United States

The Uses and Abuses of Weaponized Interdependence Daniel W. Drezner, Henry Farrell, Abraham L.

Newman,2021-03-02 How globalized information networks can be used for strategic advantage Until recently globalization was viewed on balance as an inherently good thing that would benefit people and societies nearly everywhere Now there is growing concern that some countries will use their position in globalized networks to gain undue influence over other societies through their dominance of information and financial networks a concept known as weaponized interdependence In exploring the conditions under which China Russia and the United States might be expected to weaponize control of information and manipulate the global economy the contributors to this volume challenge scholars and practitioners to think differently about foreign economic policy national security and statecraft for the twenty first century The book addresses such questions as What areas of the global economy are most vulnerable to unilateral control of information and financial networks How sustainable is the use of weaponized interdependence What are the possible responses from targeted actors And how sustainable is the open global economy if weaponized interdependence becomes a default tool for managing international relations

Hawk Hill at the time I lived every second of it and long assumed I knew everything imaginable about that team and that time Aaron Bracy proved otherwise A Soaring Season isn't only a joyous echo of those days but it's a deeply reported dive into all the coincidental circumstances required for ordinary people to go extraordinary places Brendan Quinn The Athletic In the 2003-04 season Saint Joseph's became the most unlikely and most incredible story in college basketball The underdog Hawks captivated the entire city of Philadelphia and much of the nation with a unique guard oriented style and team first mentality featuring players who were not wanted by power conferences Big time programs passed over star point guard Jameer Nelson because of his height but Nelson played an oversized sensational game that dwarfed his 5 feet 11 inches height Nelson's backcourt mate Delonte West was a lightly recruited prospect out of high school but transformed himself into an NBA first round draft pick with a work ethic and competitive drive that never had been seen before or since on Hawk Hill Outspoken head coach Phil Martelli overlooked for the only job he had ever wanted until he was nearly 41 years old surrounded Nelson and West with a perfect cast of complementary players Individually none of Nelson and West's teammates would be mentioned as an All American candidate Put all of the Hawks together however and you had a practically unstoppable force Not only did the players accept their roles they relished them And each one's contribution from Nelson and West all the way down to former cheerleader and walk on Robert Hartshorn was crucial to the entire team's success The Hawks spurred on by a mascot who never stops flapping its wings and a never quit school mantra The Hawk Will Never Die played their games in a gym that wasn't even as modern as many high schools Not much about the Hawks home felt big time not much that is except their team It was this low budget mom and pop men's basketball program that overcame seemingly insurmountable odds to complete a perfect regular season rise to the unanimous No. 1 ranking in the country and become the envy of the blue bloods of the sport St Joe's provided hope then and today by reminding everyone that you don't have to be the biggest to beat the biggest or have the best to be the best
