Young People and Uncertain Futures? James Goring, Peter Kelly, 2025-08-29 Drawing on Foucault s genealogical ethos and his work on power knowledge subjects this book analyses the ways in which neo liberal education apparatuses in Australia and other high income economies frame the problem of young people and uncertain futures The book critically examines the character of the presents and futures of education training and work and of the planet that have been produced in globalising neo liberal

capitalism during the last four decades and which see in the development of young people's enterprise and aspiration the solutions to multiple crises and uncertainties. It analyses how and why young people's behaviours and dispositions have been made knowable in these ways and the limits and possibilities that they produce for understanding what young people must be and become. The book draws on post-humanist feminist studies of techno-science and futures studies to explore the promise of more socially just and sustainable futures for young people. A thought-provoking study for scholars and students of the sociology of education and of youth and society, it will be invaluable for policymakers, governments, NGOs, educators and undergraduate and postgraduate students interested in young people and the crises of capitalism, earth systems and the biosphere.

Integrating Legal Compliance With Sustainable Development Goals Ghazali, Farahdilah, Shukor, Siti Fazilah Abdul, 2025-07-03. Integrating legal compliance with Sustainable Development Goals (SDGs) aligns national and corporate governance with global priorities. As governments, businesses and society strive to meet sustainability goals, ensuring that legal frameworks support environmental protection, social equity and economic resilience become essential. Legal compliance now plays a strategic role in sustainability by enforcing regulations, setting standards and promoting accountability. This integration strengthens law while enabling a more structured and equitable approach to achieving long-term sustainability. *Integrating Legal Compliance With Sustainable Development Goals* explores the convergence of law, sustainability and business strategy, providing a roadmap for integrating legal compliance with sustainable development goals. It examines the tools and knowledge needed to implement sustainable practices that comply with legal standards and drive positive change, offering insights for legal reforms that further support sustainable development. This book covers topics such as sustainability, urban planning and international relations and is a useful resource for business owners, government officials, policymakers, academicians, researchers and scientists.

Staging the Promises Deana Jovanović, 2025-01-15 Staging the Promises reveals how inhabitants of Bor a Serbian copper processing and mining town that lived through prosperous Yugoslav times and a post socialist decline were the audience theatrically performed promises of aspirational futures Deana Jovanović chronicles the efforts of the copper processing company and the town's authorities to theatrically perform promises of better economic urban environmental infrastructural and post industrial futures Her book asks What impact did the staging of promises have on the residents What temporal material and political effects did these performances generate How did they shape the citizens futures and their present Jovanović offers many

ethnographic examples of ambivalence in people's orientation to their futures while residents balanced hope with despair, disillusionment, and dismay. *Staging the Promises* highlights how the performances shaped the present and how, in a Gramscian twist, they sustained hope alongside power dynamics that residents often criticized. *Staging the Promises* assesses the performative ways through which contemporary capitalist futures are remade. For Jovanovi Bor represents a site that reflects a current global trend: staging the promises of enhanced futures today play a significant role in contemporary populist politics. Through them, she argues, distant futures become gradually withdrawn from people's horizons.

log linear analysis wikipedia - Sep 15 2023

log linear analysis is a technique used in statistics to examine the relationship between more than two categorical variables
the technique is used for both hypothesis testing and model building in both these uses models are tested to find the most
parsimonious i e least complex model that best accounts for the variance in the observed frequencies a pearson s chi square
test could be used instead of log linear analysis but that technique only allows for two of the variables to be c
