Misbelief Dan Ariely, 2023-09-19 In this thoughtful moving and well written book Dan Ariely narrates his personal and professional journey to understand the world of misbelievers and conspiracy theories and offers insights and tips that will hopefully help all of us protect our fragile social fabric from being torn apart by disinformation and distrust Yuval Harari bestselling author of Sapiens Misbelief is an urgent examination of the human attraction to misinformation This timely book can provide a crucial foundation for building a more empathetic and informed society Daniel H Pink 1 New York Times bestselling author of The Power of Regret The renowned social scientist professor and bestselling author of

Predictably Irrational delivers his most urgent and compelling book an eye opening exploration of the human side of the misinformation crisis examining what drives otherwise rational people to adopt deeply irrational beliefs Misinformation affects all of us on a daily basis from social media to larger political challenges from casual conversations in supermarkets to even our closest relationships While we recognize the dangers that misinformation poses the problem is complex far beyond what policing social media alone can achieve and too often our limited solutions are shaped by partisan politics and individual interpretations of truth In Misbelief preeminent social scientist Dan Ariely argues that to understand the irrational appeal of misinformation we must first understand the behavior of misbelief the psychological and social journey that leads people to mistrust accepted truths entertain alternative facts and even embrace full blown conspiracy theories

Misinformation it turns out appeals to something innate in all of us on the right and the left and it is only by understanding this psychology that we can blunt its effects Grounded in years of study as well as Ariely s own experience as a target of disinformation Misbelief is an eye opening and comprehensive analysis of the psychological drivers that cause otherwise rational people to adopt deeply irrational beliefs Utilizing the latest research Ariely reveals the key elements emotional cognitive personality and social that drive people down the funnel of false information and mistrust showing how under the right circumstances anyone can become a misbeliever Yet Ariely also offers hope Even as advanced artificial intelligence has become capable of generating convincing fake news stories at an unprecedented scale he shows that awareness of these forces fueling misbelief make us as individuals and as a society more resilient to its allure Combating misbelief requires a strategy rooted not in conflict but in empathy The sooner we recognize that misbelief is above all else a human problem the sooner we can become the solution ourselves **Han Xin Yue Kan** ,2023-02 *Mushroom News* ,2023-07 **The Art of**
