Creative Construction Gary P. Pisano,2019-01-15 This myth busting book shows large companies can construct a strategy system and culture of innovation that creates sustained growth Every company wants to grow and the most proven way is through innovation The conventional wisdom is that only disruptive nimble startups can innovate once a business gets bigger and more complex corporate arteriosclerosis sets in Gary Pisano s remarkable research conducted over three decades and his extraordinary on the ground experience with big

companies and fast growing ones that have moved beyond the start up stage provides new thinking about how the scale of bigger companies can be leveraged for advantage in innovation He begins with the simply reality that bigger companies are well different Demanding that they be like Uber is no more realistic than commanding your dog to speak French Bigger companies are complex They need to sustain revenue streams from existing businesses and deal with Wall Street s demands These organizations require a different set of management practices and approaches a discipline focused on the strategies systems and culture for taking their companies to the next level Big can be beautiful but it requires creative construction by leaders to avoid the creative destruction that is all too often the fate of too many *Return on Courage* Ryan
