

Basic Division

with Cuisenaire Rods

Model _____ Multiplying and Dividing the Power
Two alternating colors represent the first 10 multiples of 4.

The Power of Two

Power Two multiples
at the 100 and 1000 scale

Power Two multiples, at
multiples of 100 and 1000

Difficulties with Number Ronit Bird, 2021-09-08 This practical book draws on Ronit Bird's teaching experience to create detailed strategies and teaching plans for students aged 9-16 who have difficulties with number. Activities and games are used to teach numeracy skills in these key areas: number components, bridging, multiplication, division and reasoning strategies. New to this edition: An updated Part I improving the clarity and flow of the teaching ideas including a table mapping games against specific teaching points. More activities and guidance for multiplication and division. A new Part V consolidating new and existing teaching games in one place. 4 new videos added to the online resources. This is an ideal resource for class teachers, SENCO, Special Educational Needs Coordinator and maths subject leader and is equally useful for teaching assistants and learning support assistants.

The Trouble with Maths Steve Chinn, 2013-07-03 Now in a second edition, the award-winning *The Trouble with Maths* offers important insights into the often confusing world of numeracy. By looking at learning difficulties in maths from several perspectives including the language of mathematics, thinking styles and the demands of individual topics, this book offers a complete overview of the most common problems associated with mathematics teaching and learning. It draws on tried and tested methods based on research and the author's many years of classroom experience to provide an authoritative yet highly accessible one-stop classroom resource. Combining advice, guidance and practical activities, this user-friendly guide will enable you to develop flexible thinking skills, use alternative strategies for pupils to access basic facts, understand the implications of pre-requisite skills such as working memory on learning, implement effective preventative measures before disaffection sets in, recognise maths anxiety and tackle self-esteem problems, tackle the difficulties with word problems that many pupils may have, select appropriate materials to enhance understanding. With useful features such as checklists for the evaluation of books, an outline for setting up an inclusive Maths Department policy and a brand new chapter on materials, manipulatives and communication, this book will equip you with the essential skills to tackle your pupils' maths difficulties and improve standards. This book will be useful for all teachers, classroom assistants, learning support assistants and parents who have pupils that underachieve with maths.

The Learning and Teaching of Number Rina Zazkis, John Mason, Igor' Kontorovich, 2021-05-23 Numbers are the backbones of mathematics. From 1 to infinity, numbers accompany and underlie the learning of mathematics and research. While perceived as familiar and understood, numbers present fascinating and often mysterious patterns, relationships and pedagogical issues. *The Learning and Teaching of Number* explores how mathematics education research has addressed issues related to the structure of numbers and number operations and provides a classroom context. It invites readers to explore less travelled paths through a well-trodden terrain of number. This fascinating book combines mathematical content with pedagogical ideas and research results. Focusing on number, the book illustrates central ideas related to numbers via a variety of tasks at different levels of complexity. *The Learning and Teaching of Number* will allow the reader to examine and develop personal understanding of number sets and the relationships among them, enhance personal understanding of

familiar topics associated with number operations engage in a variety of tasks and strengthen personal problem solving skills enrich their repertoire of mathematical tasks and pedagogical actions and consider research ideas and results related to teaching numbers number operations and number relationships This is a valuable resource for teacher education courses graduate programs in mathematics education and professional development programs Teacher trainers and maths teachers will find their personal understanding of numbers and relationships enriched and will draw connections between research and classroom pedagogy which will extend and enhance their teaching

The Dyscalculia Solution Jane Emerson, Patricia Babbie, 2014-12-08 This new book by authors Jane Emerson and Patricia Babbie follows on from their award winning book the Dyscalculia Assessment Once careful assessment has identified the particular numeracy difficulties your pupils may have the Dyscalculia Solution provides a practical teaching guide for addressing and solving those difficulties The Dyscalculia Solution includes step by step instructions on how to teach pupils to use whole numbers by talking and reasoning about them and communicating their thinking in a verbal diagrammatic and written form The book includes scripts to emphasise the importance of using the correct language to develop numerical thinking as well as teaching objectives activities and games which are important for fostering a positive attitude to numeracy Each new concept builds on previous understanding so that new facts are derived by reasoning from known facts The Dyscalculia Solution is ideal for use with primary school children but can easily be adapted for older students and is invaluable for SENCOs TAs educational psychologists and mainstream teachers keen to support students with numeracy difficulties in their class Accompanying materials in both print and electronic formats to support busy teachers by providing lesson plans and worksheets are available with this book
