

CHAPTER 2: THEORY BASICS

Music notation is a system used to transcribe the three main components of music: *melody* (arrangement of pitches), *rhythm* (arrangement of pitches placed in time), and *harmony* (combination of two or more pitches).

MELODY

The Staff

Standard music notation is written on a grid consisting of five lines and four spaces, called a *staff*. The lines are counted from the bottom up (1–2–3–4–5), as are the spaces (1–2–3–4).

Fig. 1

At the beginning of every staff you'll find a symbol called a *clef*. There are many different types of clefs, but guitar music is notated on the *treble clef*, or *G clef* (Fig. 2).

Fig. 2

Each line and space of the staff is assigned a letter name. On the treble clef, the lines are (in order from bottom to top): E–G–B–D–F, as in “Every Good Boy Deserves Favor.” The spaces are (in order from bottom to top): F–A–C–E, which of course spells “face.”

Fig. 3

The Musical Alphabet

All pitches in music are assigned letter names. These letter names are the same as the first seven letters of the alphabet (A–B–C–D–E–F–G), and are referred to as the *musical alphabet*. Pitches are represented on the staff in the form of noteheads (circles and/or solid black dots). The higher the pitch, the higher it is placed on the staff. [Look again at the previous staff. Notice that if you line up the note names in order (line–space–line–space, etc.) from bottom to top, they follow the musical alphabet in sequential order: E–F–G–A–B–C–D–E–F.]

Many of the notes on the guitar fretboard extend beyond the staff. These pitches are notated using *ledger lines*—short lines that act as temporary staff extensions. (The only non-ledger-line notes that appear outside the staff are G, directly above the staff, and D, directly below the staff.) Check out Fig. 4 to see how they are used to represent some of the lowest and highest notes on the neck. (For an explanation of how tablature corresponds to the musical staff, refer to Fig. 20 in this chapter, and also the *Guitar Notation Legend* located at the back of the book.)

Notice that towards the end of Fig. 4 the notes drop back down and start climbing again. This is done when the ledger lines become too high and therefore impractical to read quickly. The notation “8va” indicates that these notes are to be played one octave higher than written. The use of 8va is left up to the discretion of the musical notator, but generally speaking the G note on the fourth ledger line is a good place to switch.
