The Afterlife Donald Antrim, 2024-03-26 From a fiercely intelligent writer The New York Times a wry poignant story of the difficult love between a mother and a son In the winter of 2000 shortly after his mother's death from cancer and malnourishment Donald Antrim author of the absurdist visionary masterworks *Elect Mr Robinson for a Better World* *The Hundred Brothers* and *The Verificationist* began writing about his family In pieces that appeared in *The New Yorker* and were anthologized in *Best American Essays* Antrim explored his intense and complicated relationships with his mother Louanne an artist and teacher who was at her worst a ferociously destabilized and destabilizing alcoholic his gentle grandfather who lived in the mountains of North Carolina and who always hoped to save his daughter from herself and his father who married Louanne twice The Afterlife is not a temporally linear coming of age memoir instead Antrim follows a logic of unconscious life of dreams and memories of fantasies and psychoses the way in which the world of the alcoholic

becomes a sleepless atemporal world In it he comes to terms with and fails to comes to terms with the nature of addiction and the broken states of loneliness shame and loss that remain beyond his power to fully repair This is a tender and even blackly hilarious portrait of a family faulty cracked enraging It is also the story of the way the author works in part through writing this book to become a man more fully alive to himself and to others a man capable of a life in which he may never learn or ever hope to know the nature of his origins

Death and the Afterlife Samuel Scheffler, 2013-09-09 Suppose you knew that though you yourself would live your life to its natural end the earth and all its inhabitants would be destroyed thirty days after your death To what extent would you remain committed to your current projects and plans Would scientists still search for a cure for cancer Would couples still want children In Death and the Afterlife philosopher Samuel Scheffler poses this thought experiment in order to show that the continued life of the human race after our deaths the afterlife of the title matters to us to an astonishing and previously neglected degree Indeed Scheffler shows that in certain important respects the future existence of people who are as yet unborn matters more to us than our own continued existence and the continued existence of those we love Without the expectation that humanity has a future many of the things that now matter to us would cease to do so By contrast the prospect of our own deaths does little to undermine our confidence in the value of our activities Despite the terror we may feel when contemplating our deaths the prospect of humanity s imminent extinction would pose a far greater threat to our ability to lead lives of wholehearted engagement Scheffler further demonstrates that although we are not unreasonable to fear death personal immortality like the imminent extinction of humanity would also undermine our confidence in the values we hold dear His arresting conclusion is that in order for us to lead value laden lives what is necessary is that we ourselves should die and that others should live Death and the Afterlife concludes with commentary by four distinguished philosophers Harry Frankfurt Niko Kolodny Seana Shiffrin and Susan Wolf who discuss Scheffler s ideas
