Murphy Station A Memoir From The American South:

Murphy Station David Donovan, 2010 In the southern Georgia of 1950 Murphy Station is a community marked only by two country stores two Baptist churches and a graveyard Farming is the way of life and segregation is in full force Welcome to Deep Dixie David Donovan is a young white boy growing up in Murphy Station where even the best farmers are cash poor and those who work for them usually blacks are poorer still In adult conversation the main topics are weather crops and politics Within the last category it is agreed that the main threats facing America are two communism and integration So far as young Dave knows this isn't unusual but already there are changes afoot In this richly detailed memoir laced with both humor and tragedy we see how those changes affect Dave in subtle but ultimately profound ways Coming of age in a world with the axiom no boy a chicken no man a coward Dave has the sorts of boyhood adventures common to the rural South exploits with firearms encounters with angry animals challenges from friends and a growing interest in girls As he has these adventures he also works in the field alongside black farmhands some of whom teach him vital lessons about the realities of their lives lessons that begin to challenge the prejudices and preconceptions of his time and place By the late 1950s the civil rights movement has become a major force in the South yet as David enters high school in 1960 the customs of segregation still hold sway persisting even when he leaves for college In his first year away from home he witnesses the national trauma of the Kennedy assassination which blunts the promises of Camelot In Vietnam a few years later he sees those promises collapse entirely Returning in 1970 to a Murphy Station much changed from what it was twenty years earlier David Donovan finds himself transformed as well Book Jacket **The National Union Catalogs, 1963-** ,1964 [The Woody Plant Seed Manual](#) United States. Forest Service, 2008 **The Origins of African American Literature, 1680-1865** Dickson D. Bruce, 2001-11-29 From the earliest texts of the colonial period to works contemporary with Emancipation African American literature has been a dialogue across color lines and a medium through which black writers have been able to exert considerable authority on both sides of that racial demarcation Dickson D Bruce argues that contrary to prevailing perceptions of African American voices as silenced and excluded from American history those voices were loud and clear Within the context of the wider culture these writers offered powerful widely read and widely appreciated commentaries on American ideals and ambitions The Origins of African American Literature provides strong evidence to demonstrate just how much writers engaged in a surprising number of dialogues with society as a whole Along with an extensive discussion of major authors and texts including Phillis Wheatley's poetry Frederick Douglass's Narrative Harriet Jacobs Incidents in the Life of a Slave Girl and Martin Delany's Blake Bruce explores less prominent works and writers as well thereby grounding African American writing in its changing historical settings The Origins of African American Literature is an invaluable revelation of the emergence and sources of the specifically African American literary tradition and the forces that helped shape it *North Carolina, Rebuilding an Ancient Commonwealth, 1584-1925* Robert Digges Wimberly Connor, 1928

Meade and Lee at Bristoe Station Jeffrey Hunt, 2018-08-19 The Civil War in the Eastern Theater during the late summer and fall of 1863 was anything but inconsequential. Generals Meade and Lee continued where they had left off executing daring marches while boldly maneuvering the chess pieces of war in an effort to gain decisive strategic and tactical advantage. Cavalry actions crisscrossed the rolling landscape; bloody battle revealed to both sides the command deficiencies left in the wake of Gettysburg. It was the first and only time in the war Meade exercised control of the Army of the Potomac on his own terms. Jeffrey Wm Hunt brilliantly dissects these and other issues in *Meade and Lee at Bristoe Station: The Problems of Command and Strategy After Gettysburg* from Brandy Station to the Buckland Races, August 1 to October 31, 1863. The carnage of Gettysburg left both armies in varying states of command chaos as the focus of the war shifted west. Lee further depleted his ranks by dispatching James Longstreet, his best corps commander, and most of his First Corps via rail to reinforce Bragg's Army of Tennessee. The Union defeat that followed at Chickamauga in turn forced Meade to follow suit with the XI and XII Corps. Despite these reductions, the aggressive Lee assumed the strategic offensive against his more careful Northern opponent who was also busy waging a rearguard action against the politicians in Washington. *Meade and Lee at Bristoe Station* is a fast-paced, dynamic account of how the Army of Northern Virginia carried the war above the Rappahannock once more in an effort to retrieve the laurels lost in Pennsylvania. When the opportunity beckoned, Lee took it, knocking Meade back on his heels with a threat to his army as serious as the one Pope had endured a year earlier. As Lee quickly learned again, A.P. Hill was no Stonewall Jackson, and with Longstreet away, Lee's cudgel was no longer as mighty as he wished. The high tide of the campaign ebbed at Bristoe Station with a signal Confederate defeat. The next move was now up to Meade. Hunt's follow-up volume to his well-received *Meade and Lee After Gettysburg* is grounded upon official reports, regimental histories, letters, newspapers, and other archival sources. Together, they provide a day-by-day account of the fascinating high-stakes affair during this three-month period. Coupled with original maps and outstanding photographs, this new study offers a significant contribution to Civil War literature. **Agriculture Handbook**, 2008-07 *The Woody Plant Seed Manual, Agriculture Handbook 727*, July 2008, 2009 Big Wonderful Thing Stephen Harrigan, 2019-10-01 The story of Texas is the story of struggle and triumph in a land of extremes. It is a story of drought and flood, invasion and war, boom and bust, and of the myriad peoples who, over centuries of conflict, gave rise to a place that has helped shape the identity of the United States and the destiny of the world. I couldn't believe Texas was real; the painter Georgia O'Keeffe remembered of her first encounter with the Lone Star State. It was for her the same big wonderful thing that oceans and the highest mountains are. *Big Wonderful Thing* invites us to walk in the footsteps of ancient as well as modern people along the path of Texas's evolution. Blending action and atmosphere with impeccable research, New York Times best-selling author Stephen Harrigan brings to life with novelistic immediacy the generations of driven men and women who shaped Texas, including Spanish explorers, American filibusters, Comanche warriors, wildcatters, Tejano activists, and spellbinding artists—all of them.

taking their part in the creation of a place that became not just a nation not just a state but an indelible idea Written in fast paced prose rich with personal observation and a passionate sense of place Big Wonderful Thing calls to mind the literary spirit of Robert Hughes writing about Australia or Shelby Foote about the Civil War Like those volumes it is a big book about a big subject a book that dares to tell the whole glorious gruesome epically sprawling story of Texas The Encyclopedia of the Vietnam War Bloomsbury Publishing,2011-05-20 Now in its second edition this comprehensive study of the Vietnam War sheds more light on the longest and one of the most controversial conflicts in U S history The Vietnam War lasted more than a decade was the longest war in U S history and cost the lives of nearly 60 000 American soldiers as well as millions of Vietnamese many of whom were uninvolved civilians The lessons learned from this tragic conflict continue to have great relevance in today s world Now in its second edition The Encyclopedia of the Vietnam War A Political Social and Military History adds an entire additional volume of entries to the already exhaustive first edition making it the most comprehensive reference available about one of the most controversial events in U S history Written to provide multidimensional perspectives into the conflict it covers not only the American experience in Vietnam but also the entire scope of Vietnamese history including the French experience and the Indochina War as well as the origins of the conflict how the United States became involved and the extensive aftermath of this prolonged war It also provides the most complete and accurate order of battle ever published based upon data compiled from Vietnamese sources This latest release delivers even more of what readers have come to expect from the editorship of Spencer C Tucker and the military history experts at ABC CLIO

Throughout the South black women were crucial to the Civil Rights Movement serving as grassroots and organizational leaders They protested participated sat in mobilized created energized led particular efforts and served as bridge builders to the rest of the community Ignored at the time by white politicians and the media alike with few exceptions they worked behind the scenes to effect the changes all in the movement sought Until relatively recently historians too have largely ignored their efforts Although African American women mobilized all across Dixie their particular strategies took different forms in different states just as the opposition they faced from white segregationists took different shapes Studies of what happened at the state and local levels are critical not only because of what black women accomplished but also because their activism leadership and courage demonstrated the militancy needed for a mass movement In this volume scholars address similarities and variations by providing case studies of the individual states during the 1950s and 1960s laying the groundwork for more synthetic analyses of the circumstances factors and strategies used by black women in the former Confederate states to destroy the system of segregation in this country

The Everglades Experiments Curtis Richardson, 2008-03-12 In the late 1960s I worked as a graduate teaching assistant in plant ecology for the late Dr John Henry Davis at the University of Florida On one of our visits to the Everglades he mentioned to me that he had been studying problems of the Everglades since the early 1930s and that rapid growth in Florida unless checked was about to doom the Everglades He hoped his vegetation survey of the Everglades and his vegetation map could someday be used to help restore the Everglades to some semblance of what it had been prior to the turn of the century These long forgotten discussions with Dr Davis were rekindled when during a wetland conference in Orlando Florida in the late 1980s I was asked what might be responsible for the reported massive invasion of cattails that had been noted during the past decade in the Everglades Several hypotheses were presented at the meeting including some preliminary data on the significant inputs of nutrients from agricultural lands and Lake Okeechobee to the north The shifts in the hydrologic conditions and flow patterns of the existing Everglades were also mentioned Because of the extensive work on phosphorus and nutrient retention then being done at the Duke University Wetland Center I was asked in early 1989 to do a preliminary survey and analysis of the ecological status of the Everglades From this early work carried out by Dr
