East Indian Music in the West Indies Peter Lamarche Manuel, Trinidadian sitarist composer and music authority Mangal Patasar once remarked and tan singing You take a capsule from India leave it here for a hundred years and this is what you get Patasar was referring to what may be the most sophisticated and distinctive art form cultivated among the one and a half million East Indians whose ancestors migrated as indentured laborers from colonial India to the West Indies between 1845 and 1917 Known in Trinidad and Guyana as tan singing or local classical music and in Suriname as baithak gana sitting music tan singing has evolved in to a unique idiom embodying the rich poetic and musical heritage brought from India as modified by a diaspora group largely cut off from its ancestral homeland In recent decades however tan singing has been declining regarded as quaint and crude by younger generations raised on MTV Hindi film music and disco At the same time Indo Caribbeans have been participating in their countries economic political and cultural lives to a far greater extent than previously Accompanying this participation has been a lively cultural revival encompassing both an enhanced assertion of Indianness and a spirit of innovative syncretism One of the most well known products of this process is chutney a dynamic music and dance phenomenon that is simultaneously a folk revival and a pop hybrid In Trinidad it has also been the vehicle for a controversial form of female empowerment and an agent of a new more inclusive conception of national identity Thus East Indian Music in the West Indies is a portrait of a diaspora community in motion It documents the social and cultural development of a people without history a people who have sometimes been dismissed as foreigners who merely perpetuate the culture of the homeland rather than becoming truly Caribbean Professor Manuel shows how inaccurate this characterization is On the one hand in the form of tan singing it examines the distinctiveness of traditional Indo Caribbean musical culture On the other in the form of chutney it examines the new assertiveness and syncretism of Indo Caribbean
