Muslim Societies and Indonesian Politics Imron Rosidi, 2011 The ICMI The Association of Indonesian Muslim Intellectuals played an important role in Indonesian politics during the New Order This organization had a close connection with Muslim societies in Indonesia to channel their political aspiration This book describes the political role of the ICMI and Muslim intellectuals after the New Order This book is beneficial for those who are interested in Sociology of Islam Politics and Southeast Asian specifically Indonesian studies *Indonesian Politics and Society* David Bouchier, Vedi Hadiz, 2014-07-08 Using an exhaustive selection of primary sources this book presents a rich and textured picture of Indonesian politics and society from 1965 to the dramatic changes which have taken place in recent years Providing a complete portrait of the Indonesian political landscape this authoritative reader is an essential resource in understanding the history and contradictions of the New Order current social and political conditions and the road ahead **Indonesian Politics Under Suharto** Michael R J Vatikiotis, 2013-01-11 This revised third edition provides an analysis of Suharto's New Order from its inception to the emergence of B J Habibie as President The author reassesses the New Order's origins and its military roots and evaluates the considerable economic changes that have taken place since the 1960s He examines Suharto's politics and in a new chapter the reasons behind the crisis and Suharto's fall **Managing Politics and Islam in Indonesia** Donald J. Porter, 2013-08-21 First published in 2004 This text examines the politics of Islam and the state of Indonesia over recent decades during which time there has been a notable resurgence of Islamic political movements It argues that after the state had consistently worked to restrict and exclude political Islam from power in the late 1980s and 1990s there was a change whereby Suharto courted the support and began to incorporate Muslim interests within the political system *The Politics of Shari'a Law* Michael Buehler, 2016-09-01 The Islamization of politics in Indonesia after 1998 presents an underexplored puzzle why has there been a rise in the number of shari'a laws despite the electoral decline of Islamist parties Michael Buehler presents an analysis of the conditions under which Islamist activists situated outside formal party politics may capture and exert influence in Muslim majority countries facing democratization His analysis shows that introducing competitive elections creates new pressures for entrenched elites to mobilize and structure the electorate thereby opening up new opportunities for Islamist activists to influence politics Buehler's analysis of changing state religion relations in formerly authoritarian Islamic countries illuminates broader theoretical debates on Islamization in the context of democratization This timely text is essential reading for students scholars and government analysts Indonesia, Islam, and the International Political Economy Mark Williams, 2017-04-21 This book examines the role of Islamic identity in Indonesia's foreign economic relations and in its engagement with the world order There is no single expression of Islam in Indonesia the politics espoused by Islamic parties and organizations are far from monolithic Islamic sentiment has been invoked by the state to justify heinous acts of brutality as well as by violent subnational revolutionary groups However these expressions of

Islam have deviated from the dominant narrative which is in favour of international cooperation and economic development

Nationalism and Ethnic Conflict in Indonesia Jacques Bertrand, 2004 Since 1998 which marked the end of the thirty three year New Order regime under President Suharto there has been a dramatic increase in ethnic conflict and violence in Indonesia In his innovative and persuasive account Jacques Bertrand argues that conflicts in Maluku Kalimantan Aceh Papua and East Timur were a result of the New Order s narrow and constraining reinterpretation of Indonesia s national model The author shows how at the end of the 1990s this national model came under intense pressure at the prospect of institutional transformation a reconfiguration of ethnic relations and an increase in the role of Islam in Indonesia s political institutions It was within the context of these challenges that the very definition of the Indonesian nation and what it meant to be Indonesian came under scrutiny The book sheds light on the roots of religious and ethnic conflict at a turning point in Indonesia s history

Activists in Transition Thushara Dibley, Michele Ford, 2019-12-15 Activists in Transition examines the relationship between social movements and democratization in Indonesia Collectively progressive social movements have played a critical role over in ensuring that different groups of citizens can engage directly in and benefit from the political process in a way that was not possible under authoritarianism However their individual roles have been different with some playing a decisive role in the destabilization of the regime and others serving as bell weathers of the advancement or otherwise of Indonesia s democracy in the decades since Equally important democratization has affected social movements differently depending on the form taken by each movement during the New Order period The book assesses the contribution that nine progressive social movements have made to the democratization of Indonesia since the late 1980s and how in turn each of those movements has been influenced by democratization

State

of Authority Gerry Van Klinken, Joshua Barker, 2018-05-31 A major realignment is taking place in the way we understand the state in Indonesia New studies on local politics ethnicity the democratic transition corruption Islam popular culture and other areas hint at novel concepts of the state though often without fully articulating them This book captures several dimensions of this shift One reason for the new thinking is a fresh wind that has altered state studies generally People are posing new kinds of questions about the state and developing new methodologies to answer them Another reason for this shift is that Indonesia itself has changed probably more than most people recognize It looks more democratic but also more chaotic and corrupt than it did during the militaristic New Order of 1966 1998 State of Authority offers a range of detailed case studies based on fieldwork in many different settings around the archipelago The studies bring to life figures of authority who have sought to carve out positions of power for themselves using legal and illegal means These figures include village heads informal slum leaders district heads parliamentarians and others These individuals negotiate in settings where the state is evident and where it is discussed coffee houses hotel lounges fishing waters and street side stalls These case studies and the broader trend in scholarship of which they are a part allow for a new theorization of the state in Indonesia that more adequately addresses the complexity of political life in this vast archipelago nation State of Authority demonstrates that the state of Indonesia is not monolithic but is constituted from the ground up by a host of local negotiations and symbolic practices

"Public Religion" and the Pancasila-based State of Indonesia Benyamin Fleming Intan, 2006 Public Religion and the Pancasila Based State of Indonesia An Ethical and Sociological Analysis analyzes the public role of religion in Indonesian society from the pre independence period to the end of Suharto's New Order government It offers constructive suggestions regarding how Indonesian religion can play a significant role within the framework of Pancasila Indonesia's national ideology Based on a Christian Muslim dialogue it is only within the realm of civil society that Indonesian religion will be able to promote the ideas of democracy tolerance and human rights in Indonesian public affairs In short far from being anti pluralist Indonesian religion evolves as a liberating force in the life of society nation and state

Farhadian, 2005 As the largest Muslim country in the world Indonesia is marked by an extraordinary diversity in language ancestry culture religion and ways of life Christianity Islam and Nationalism in Indonesia focuses on the Christian Dani of West Papua providing a social and ethnographic history of the most important indigenous population in the troubled province It presents a fascinating overview of the Dani's conversion to Christianity examining the social religious and political uses to which they have put their new religion While its indigenous population is Papuan and its dominant religions are Christianity and animism West Papua contains a growing number of Papuan Muslims Farhadian provides the first study of this highland Papuan group in an urban context which helps distinguish it from the typical highland Papuan ethnography Incorporating cultural and structural approaches the book affords a fascinating insight into the complex relationship between Christianity Islam and nationalism

Contesting Indonesia Kirsten E.

Schulze,2024-10-15 *Contesting Indonesia* explains Islamist separatist and communal violence across Indonesian history since 1945 In a sweeping argument that connects endemic violence to a national narrative Kirsten E Schulze finds that the outbreak of violence is related to competing local notions of the national imaginary as well as contentious belonging Through detailed examination of six case studies the Darul Islam rebellions Jemaah Islamiyah s jihad and the conflicts in East Timor Aceh Poso and Ambon Schulze argues that violence was more likely to occur in places that are on the geographic ideological ethnic and religious periphery of the Indonesian state that violence by non state actors was most protracted in locations where there was a well established alternative national imaginary supported by an alternative historical narrative and that violence by the state was most likely in places where the state had a significant territorial interest Drawing on a vast collection of interviews and archival and published sources *Contesting Indonesia* provides a new understanding of the history of violence across the Indonesian archipelago

Shari'a and Politics in Modern Indonesia Arskal Salim,Azyumardi Azra,2003 After the fall of President Soeharto there have been heightened attempts by certain groups of Muslims to have sharia Islamic law implemented by the state Even though this burning issue is not new it has further divided Indonesian Muslims The introduction of Islamic law would also affect the future of multi cultural and multi religious Indonesia So far however the introduction of sharia nationwide has been opposed by the majority of Indonesian Muslims This book gives an overview of sharia from post Independence in 1945 to the most recent developments in Indonesia at the start of the new millennium

Civil Islam Robert W. Hefner,2011-05-21 *Civil Islam* tells the story of Islam and democratization in

Indonesia the world's largest Muslim nation Challenging stereotypes of Islam as antagonistic to democracy this study of courage and reformation in the face of state terror suggests possibilities for democracy in the Muslim world and beyond Democratic in the early 1950s and with rich precedents for tolerance and civility Indonesia succumbed to violence In 1965 Muslim parties were drawn into the slaughter of half a million communists In the aftermath of this bloodshed a New Order regime came to power suppressing democratic forces and instituting dictatorial controls that held for decades Yet from this maelstrom of violence repressed by the state and denounced by conservative Muslims an Islamic democracy movement emerged strengthened and played a central role in the 1998 overthrow of the Soeharto regime In 1999 Muslim leader Abdurrahman Wahid was elected President of a reformist civilian government In explaining how this achievement was possible Robert Hefner emphasizes the importance of civil institutions and public civility but argues that neither democracy nor civil society is possible without a civilized state Against portrayals of Islam as inherently antipluralist and undemocratic he shows that Indonesia's Islamic reform movement repudiated the goal of an Islamic state mobilized religiously ecumenical support promoted women's rights and championed democratic ideals This broadly interdisciplinary and timely work heightens our awareness of democracy's necessary pluralism and places Indonesia at the center of our efforts to understand what makes democracy work
