How to College Andrea Malkin Brenner, Lara Hope Schwartz, 2025-06-25

The first practical guide of its kind that helps students transition smoothly from high school to college. The transition from high school and home to college can be stressful. Students and parents often arrive on campus unprepared for what college is really like. Academic standards and expectations are different from high school; families aren't present to serve as scaffolding for students; and first years have to do what they call "adulting." Nothing in the college admissions process prepares students for these new realities. As a result, first-year college students report higher stress, more mental health issues, and lower completion rates than in the past. In fact, up to one-third of first-year college students will not return for their second year, and colleges are reporting an increase in underprepared first-year students. *How to College* is here to help. Professors Andrea Malkin Brenner and Lara Schwartz guide first-year students and their families through the transition process during the summer after high school graduation and throughout the school year, preparing students to succeed and thrive as they transition and adapt to college. The book draws on the authors' experience teaching, writing curricula, and designing programs for thousands of first-year college students over decades.
