Labor Day Word Problems

Name: _____

Labor Day is a federal holiday celebrated in the United States on the first Monday of September. A federal holiday means it is celebrated in all 50 states. But did you ever wonder why we get this day off? When did Labor Day begin? Who are we even celebrating?

In the late 1800s, there was a movement to give labor workers better working conditions. A laborer was typically someone who did physical labor as a job, such as a farmer or a factory worker. It was common for laborers to work 10-16 hours per day, 6 days per week. And this even included kids like you!

The Labor Movement demanded better conditions for labor workers. Their demands included an 8-hour workday and a 5-day workweek. In honor of this movement, a day off was given to workers known as "Labor Day." Typically, laborers only had Sundays off. Labor Day was on a Monday and workers were encouraged to attend picnics and city festivals and to spend time with their families.

Oregon was the first state to make Labor Day an official holiday in 1887. Between 1887 and 1894, twenty-nine more states had started recognizing it as a holiday. In 1894, it became a federal holiday, which means it was celebrated by all 50 states.

Though summer technically doesn't end until the Autumnal Equinox (on the third week of September), Labor Day is often considered the "unofficial end of summer." Many pools and waterparks close after Labor Day Weekend. Fall sports also begin around this time. Typically, College Football has their first big events later, begin around this time. Typically, College Football has their first big events later, begin around this time.

This is your chance!

This year, while you are enjoying your "long weekend," remember the hard work of laborers from so many years ago.
