systems What potential risks if they become reality may cause substantial increases in operating costs or threaten the very survival of the enterprise This article utilizes the relevant annual report disclosures from eBay parent of PayPal along with other eBay and PayPal documents as a potentially powerful teaching device Most of the descriptive language to follow is excerpted directly from eBay s regulatory filings My additions include weaving these materials into a logical presentation and providing supplemental sources for those who desire a deeper look usually in my footnotes at any particular aspect I ve sought to present a roadmap with these materials that shows eBay s struggle to optimize its business performance while navigating through a complicated maze of regulatory compliance concerns and issues involving governmental jurisdictions throughout the world First a brief look is provided at the SEC s disclosure requirements Second a description of the eBay and PayPal history and business models is presented Next is a discussion of risk factors credit cards U S state money transmission laws online and mobile growth and reliance on internet access International issues follow with an examination of anti money laundering counter terrorist and other potential illegal activity laws The author estimates that PayPal s cost of accounting and legal fees and management time devoted to the discovery examination and documentation of the perceived enterprise risk associated with e commerce cyber information technology and electronic payment system risks may aggregate in the range of tens of millions of dollars a year The value proposition offered here is disarmingly simple at no out of pocket cost the reader has an opportunity to invest probably less than an hour to read and reflect upon eBay and PayPal s multiple million dollar research investment and documentation of perceived e commerce cyber IT and electronic payment system risk Hopefully this will prove of value to those either interested in the rapidly changing dynamics of 1 electronic payment systems or 2 those engaged in Internet site operations **Take My Money** Noel Rappin,2017
