Rupley, David Paige, Chase Young, 2021-01-21 Reading fluency has been identified as a key component of proficient reading. Research has consistently demonstrated significant and substantial correlations between reading fluency and overall reading achievement. Despite the great potential for fluency to have a significant outcome on students' reading achievement, it continues to be not well understood by teachers, school administrators, and policy makers. The chapters in this volume examine reading fluency from a variety of perspectives. The initial chapter sketches the history of fluency as a literacy instruction component. Following chapters examine recent studies and approaches to reading fluency, followed by chapters that explore actual fluency instruction models and the impact of fluency instruction. Assessment of reading fluency is critical for monitoring progress and identifying students in need of intervention. Two articles on assessment, one focused on word recognition and the other on prosody, expand our understanding of fluency measurement. Finally, a study from Turkey explores the relationship of various reading competencies, including fluency, in an integrated model of reading. Our hope for this volume is that it may spark a renewed interest in research into reading fluency and fluency instruction and move toward making fluency instruction an even more integral part of all literacy instruction. John Comings, Barbara Garner, Cristine Smith, 2023-04-14 The Review of Adult Learning and Literacy: Connecting Research, Policy, and Practice, Volume 5 is the newest volume in a series of annual publications of the National Center for the Study of Adult Learning and Literacy (NCSALL) that address major issues, the latest research, and the best practices in the field of adult literacy and learning. Each Review opens with an overview of significant recent developments in the field of adult literacy during the year, followed by a set of chapters presenting in-depth reviews of research and best practices on topics of high interest to the field. Volume 5 includes chapters on the increasing emphasis on scientifically based research and evidence-based practice in education, their use in adult literacy, and the perception of their usefulness by those who work in the field; recent research on the impact of acquiring a General Educational Development (GED) credential; the adult literacy system in the state of Massachusetts, focusing on the factors that led to investing and restructuring in the system and the lessons learned that may be helpful to other states interested in building strong systems of educational service delivery for adult learners; a history and review of volunteerism in adult literacy; the history and structure of the adult literacy system in New Zealand, including policy recommendations for the current system to more effectively serve all adult learners; and a review of theories and key resources related to metacognitive skills in reading. The Review of Adult Learning and Literacy serves as the journal of record for the field and is an essential resource for all stakeholders who need to know what research can reveal about how best to serve adult learners. **Nursing School Entrance Exams Prep**
