Lifting Productivity In Singapore's Retail And Food Services Sectors: The Role Of Technology, Manpower And Marketing

Mun Heng Toh, 2018-05-25 Measuring productivity is often considered a difficult task for industries in the services sectors. This book offers a solution in the form of the 8M approach: Management, Manpower, Method, Money, Market, Make, Material, and Message. This 8M framework is used to analyze the many facets of productivity and make pertinent solutions and suggestions to lift productivity in enterprises, especially those in the retail and food services sectors. This book consists of 10 chapters. Each chapter is an in-depth study of a specific measure, be it a technological system, a manpower strategy, or a marketing program to improve the performance and productivity of small and medium enterprises (SMEs) in the retail and food services sectors in Singapore. Technology-driven solutions are the highlight of this book. Every study presented involves field work in terms of surveys, interviews, or focus group discussions with stakeholders. The findings of the studies lead to policy recommendations and suggestions for improving the productivity performance of SMEs in the retail and food services sectors.

Bank 3.0 Brett King, 2012-11-19 The first edition of BANK 2.0 is on Amazon's bestseller list for banking and finance in the US, UK, Germany, France, and Japan for over 18 months, took the financial world by storm, and became synonymous with disruptive customer behaviour, technology shift, and new banking models. In BANK 3.0, Brett King brings the story up to date with the latest trends redefining financial services and payments from the global scramble for dominance of the mobile wallet and the expectations created by tablet computing to the operationalising of the cloud, the explosion of social media, and the rise of the de-banked consumer who doesn't need a bank at all. BANK 3.0 shows that the gap between customers and financial services players is rapidly widening, leaving massive opportunities for new non-bank competitors to totally disrupt the industry. On the Web and on Mobile, the customer isn't king; he's dictator. Highly impatient, skeptical, cynical, Brett King understands deeply what drives this new hard-nosed customer. Banking professionals would do well to heed his advice. Gerry McGovern, author of *Killer Web Content*.
