The Indonesia National Survey Project 2022: Engaging with Developments in the Political, Economic and Social Spheres Burhanuddin Muhtadi,Hui Yew-Foong,Siwage Dharma Negara,2023-02-28 ISEAS Yusof Ishak Institute has commissioned a second nationwide survey in Indonesia as a follow up to the first similar project in 2017 called the Indonesia National Survey Project INSP Its broad aim is to enhance understanding of political economic and social developments in Indonesia Its key findings are as follows The approval rating of President Joko Widodo hovers around 71.8 per cent at least before the September 2022 announcement on the fuel subsidy cut His major infrastructure push as his flagship development programme still garners the most positive assessment However poverty unemployment and cost of living remain key flashpoints that the government should be concerned with While respondents are generally aware of the plan to relocate the national capital and are more likely to agree rather than disagree with it most have reservations about its urgency and the financial burden that such an undertaking implies Muslim countries such as Saudi Arabia and Turkey are

the most admired by Indonesians followed by Singapore In view of the ongoing armed conflict in Europe it is notable that Russia is more admired than the US and EU Where the rise of China is concerned respondents who perceive a negative impact exceed those who perceive a positive one which is a reversal of the trend found in the 2017 survey At the same time negative opinions towards China s Belt and Road Initiative is also more strongly evident than positive opinion While Indonesian Muslims are generally devout practising Muslims the majority do not harbour aspirations to make Indonesia an Islamic state preferring instead the cultural inclusiveness currently in place Reservations about the political role of Chinese Indonesians continue to persist and a majority do not support members of this community taking up key political positions Respondents are largely aware of climate change environment and energy transition issues and support government policies addressing them However the major challenge is seen to be in the promotion of lifestyle changes that will reduce damage to the environment

Decoding **Facebook Buy Online**: Revealing the Captivating Potential of Verbal Expression
