Meal Prep Andrew Johnson,2017-06-23 We live in a world of perpetual motion and even as the Earth keeps spinning we also find ourselves spinning in the old familiar habits and routines of our lives Many of these choices aren't the healthiest but we find ourselves limited by the mere 24 hours we have throughout the course of the day to get things done It is due to this lack of time that many of us reach for the greasy fast food and the heavily processed microwaveable dinners It's not necessarily because we prefer these substitutes it's just that after a long day's work few of us have the time and energy to put anything better together We settle for low quality foods because we figure that our busy lifestyles do not allow us much of a choice But this is exactly where the idea of Meal Prepping comes in because through the concept of prepping the most laborious aspect of meal making ahead of time you don't have to worry about it later This is great for those who have free time on the weekend but are swamped the rest of their work week That way they can prep several meals perhaps even their whole weeks worth of food in advance Then when it comes time to eat in the early morning or late evening rush all they have to do is the bare minimum of work involved in cooking In many cases with all of the veggie chopping meat cooking and ingredient blending accounted for all you really have to do is heat up the prepped meal in the microwave and you are ready to go But don't get me wrong this is no microwave TV dinner this is a full course meal that has simply been prepped well in advance You are using the healthiest and cleanest of ingredients and saving yourself time and money in the process So if you are interested in freeing yourself from the fast and junk food monotony of daily life buy this book and learn to prep your meals way ahead of time This book covers Implementation of Meal Prep Breakfast Meal Preparation Lunch and Dinner Prep Vegetarian and Vegan specialties Dessert prep recipes And much More
