Good Meal Prep Ideas For Beginners and Dummies Barbara Dawson, 2020-08-18 Meal prepping is meal prepping a meal or recipe then portioning it out to grab and go meals for later If you've ever kept your leftovers from dinner to take with you for lunch then next day then you've learned mini meal prepped Get it though meal prepping refers to preparing 3-7 days worth of food at a time Think of it like keeping your lunches for the week all at once instead of keeping your lunch for the morning You can use this same technique for breakfast lunch dinner and snacks Meal prepping prevents food waste and reduces time to eat outside your home whether that's planned or a budget When keeping your meal plan for the week you'll eat healthy meals without having to do it each day to repeat the meal prep not for everyone It is good for those who value convenience and often more than anything With meal prepping you'll eat the same thing for a few days in a row so if you don't like leftovers or get bored with food meal prepping isn't for you If having nutritious food while maximizing your time and budget is more valuable to you than doing something different every day meal prep is what I've generally not seen I meal prep for myself or maybe one other person doing it for a whole family Meal prep for a whole family would be quite difficult but the result would be a meal plan that is stored in the refrigerator for a slow day in the week In addition to the way food is packed the individual nuances of your refrigerator can impact the health of your refrigerated meal So the food is acceptable having a texture and flavor well beyond the eater Always begin with the refrigerator guidelines both FDA and the manufacturer's then go by your own preferences In general I don't like to eat more than four days worth of food but I find that both that food is useful to me and I like it
