Al-Sharafi, Mostafa Al-Emran, Garry Wei-Han Tan, Keng-Boon Ooi, 2024-06-12 This book explores current and future trends in adopting intelligent technologies among individuals and organizations The edited book includes empirical and review studies primarily focusing on these issues This focus aids scholars in conducting future research in the domain and identifying possible future developments of emerging technologies The empirical studies in the book utilize recent and advanced analytical techniques for data analysis *Interdisciplinary Assessment of Personal Health Monitoring* S. Schmidt, O. Rienhoff, 2013-07-17 Europe is facing a paradox while governments try to curb public spending the demands on our healthcare systems continue to rise The use of smart technologies and innovation can help to address the challenges faced by healthcare systems today such as an ageing population a shortage of healthcare professionals and restrictions on financial resources But despite increasing evidence of the benefits technology can bring the healthcare sector has been slow to embrace the digital revolution and has stuck to more traditional methods and models This book presents selected contributions to the symposium on Personal Health Monitoring PHM and Ethics and future areas of PHM which took place in advance of the 11th World Congress of Bioethics held in Rotterdam the Netherlands in June 2012 Most of the papers present

the outcomes of the European PHM Ethics project which conducted interdisciplinary analyses of emerging PHM applications. Additional invited contributions deal with important issues related to the project's primary objectives and outcomes. The project is strongly associated with the new e Health Action Plan launched by the European Commission in December 2012 which is designed to bring the benefits of digital solutions into healthcare systems. The book covers a broad spectrum ranging from the technical setup of PHM systems to ethical issues raised by PHM applications and will be of interest to all those concerned with improving the provision of healthcare worldwide.

IMPACT OF SCIENCE AND TECHNOLOGY IN ADVANCED RESEARCH IN NURSING AND MEDICAL SCIENCES DR. RAJEEV SINGH, DR. M. S. BHADORIYA, MR. D. D. SHRIVASTAVA, 2019-08-07. The integration of telehealth nursing services with cloud technology represents a significant advancement in healthcare delivery offering improved access to care, enhanced patient outcomes and increased efficiency in nursing practice. This paper explores the various aspects of this integration including the technological infrastructure, benefits, challenges and future prospects. Through a comprehensive review of current literature and case studies, the paper highlights the transformative potential of cloud-enabled telehealth in nursing, emphasizing its role in addressing healthcare disparities, enhancing patient engagement and optimizing clinical workflows. Telehealth nursing services have gained momentum as a vital component of modern healthcare, especially in the wake of the COVID-19 pandemic. These services, which leverage digital communication technologies to deliver care remotely, are increasingly integrated with cloud technology to enhance their effectiveness. Cloud computing offers scalable, secure and cost-effective solutions that can support the expansive data needs of telehealth services. This paper aims to study the integration of telehealth nursing services with cloud technology, focusing on how this integration enhances patient care. Telehealth nursing involves the use of electronic communication tools to provide nursing care to patients who are geographically separated from healthcare providers. These services include virtual consultations, remote monitoring, health education and chronic disease management.
