form It is through sharing and exchanging musical compilations that the playlist as a social form serves as a vehicle or medium facilitating new forms of sociation and communication The communicative function of the playlist is due to its construction through emotions as uniquely subjective judgements based on the I as an emotional self feeling Thus musical compilations take part in the self construction process and can serve as a tool for the symbolic expression of the self Moreover the analysis points out that there are differences in how well certain parts of the self can be communicated by a playlist Emotional expressions of the self are translated into particular universal music patterns most successfully Furthermore the analysis shows that some people like to browse through the playlists of others and judge them thereupon which results in some type of musical voyeurism termed playlistism In conclusion I argue that the musical playlist is both socially implicated and socially implicating **Vanity Fair** ,2018 How to Get on Podcasts: Cultivate Your Following, Strengthen Your Message, and Grow as a Thought Leader through Podcast Guesting Michelle Glogovac,2024-02-27 How to leverage podcast guesting to elevate yourself as a thought leader generate more revenue and promote your business all for little to no cost The explosion of social media AI enabled online advertising and the overall cacophony of the internet has made it harder than ever to connect a message with an audience One of the most powerful emerging tools for cutting through that noise is being a guest on podcasts or podcast guesting Michelle Glogovac aka The Podcast Matchmaker™ knows the impact podcast guesting has on business and brand growth She helps entrepreneurs nonprofit leaders activists experts and authors promote themselves their businesses organizations stories and expertise via podcast interviews In How to Get on Podcasts she teaches you how to Create unique speaking topics without being generic Define your ideal audience Design branded media kits Establish your expertise and knowledge Share yourself freely without resorting to sales tactics Tell compelling stories Repurpose your interviews into evergreen marketing content Turn every interview into a valuable business opportunity There are more than two million podcasts out of which 500 000 host expert guests a huge opportunity for leveraging a free and robust marketing tool if you have the know how With How to Get on Podcasts you have everything you need to increase business boost your career and brand and elevate your thought leadership potential **Prospect** ,2009

Impact of context-aware recommender systems on habitual listening patterns ,2017-11-21 Seminar paper from the year 2017 in the subject Musicology Miscellaneous grade 1 0 language English abstract With the ubiquitous availability and rapid travelling of information networked media environments confront consumers with an abundance of information which they can not handle by themselves As consequence of that digital media platforms such as Spotify make use of recommender systems that suggest items based on anticipated user preferences Thereby algorithms assist users to navigate huge databases of items Recommender systems turn out to be one of the most powerful tools to cope with information overload On the other hand digital music platforms afford user with new opportunities to add share comment or rank items and thus facilitate the formation of participatory music communities However very little is known about the socio cultural
