Reflecting a broadly held political view that in a market based economy the arts were a frill they were deemed unnecessary courses compared to sciences technology engineering and mathematics But what kind of Canada might we make if we were to place art and culture at the heart of our mutual decision making and return the arts to a central position in our education shifting to steam rather than stem What might be possible if we integrate the creative imagination into our responses to the great social challenges we face What impact would it have on the future shape of our democracy It s time to find where the Compassionate Imagination can take us
