

A top-down view of a wooden desk with various study supplies. On the left, there are two small green square containers, one with a black star. In the center, a brown paper bag is open, revealing a black pen, a blue pen, and a small black eraser. To the right, a calendar with colorful tabs is visible. In the foreground, a calendar with a grid and a blue cover is partially visible. The background is a wooden surface.

Sex, Scotch and Scholarship Khushwant Singh, 2012-07-21 In this anthology which comprises some of Khushwant Singh's best writing you can look forward to some talk of sex a little of Scotch and much Scholarship The collection attempts to mirror the author's concerns and passions his love of nature his anguish over the situation in Punjab his interest in religions of the world and his scholarly research on the one into which he was born Sikhism The highlight of this book however is the expansive autobiographical opening piece written in Khushwant's characteristically candid style and perhaps the most complete self portrait he has yet painted *Theoretical Scholarship and Applied Practice* Sarah Pink, Vaike Fors, Tom

O'Dell, 2017-04-01 Academics across the globe are being urged by universities and research councils to do research that impacts the world beyond academia Yet to date there has been very little reflection amongst scholars and practitioners in these fields concerning the relationship between the theoretical and engaged practices that emerge through such forms of scholarship *Theoretical Scholarship and Applied Practice* investigates the ways in which theoretical research has been incorporated into recent applied practices across the social sciences and humanities This collection advances our understanding of the ethics values opportunities and challenges that emerge in the making of engaged and interdisciplinary scholarship **Research Methods for African Scholarship** Kehbuma Langmia, Chuka Onwumechili, Laban Ayiro, Agnes

Lucy Lando, 2024-11-19 This book spotlights and demystifies under researched elements of research design to support successful research initiatives undertaken by students in African universities This volume marks a significant and important departure from research design books rooted in European and American socio cultural context and places emphasis on contextual realities in Africa Attending to socio cultural oral and written methods of eliciting data from participants contextual sampling techniques oral and third party open ended survey instrumentation and multi pronged data analysis schemes that emphasize ontological epistemological and axiological findings these chapters constitute a novel and much needed focus on realities and examples from the continent of Africa Written by African scholars the book will appeal to post graduate students and early career scholars and researchers with interests in research methods across the social sciences

W. James Potter, 2008-12-11 *Arguing for a General Framework for Mass Media Scholarship* challenges scholars and students

to consider and reconsider what we know about media and how we think about media As such the book provides an important framework for thinking about knowledge regardless of the discipline The text provides all of the necessary tools to move the field forward in a way that will increase the rigor of the work being done and augment the overall profile of the discipline Dana Mastro University of Arizona In this groundbreaking book W James Potter presents an innovative perspective to media scholars and students who are frustrated with the fragmentation of research findings across so many journals books and fields Arguing for a General Framework for Mass Media Scholarship presents a clear plan for a more efficient way to build knowledge about the mass media so that it can be better organized and made more useful Key Features Conducts an in depth analysis of mass media scholarship s four major facets of effects content audiences and organizations Presents a significant shift in conceptualizing media effects and ways research can be conducted to generate more useful knowledge about media influence Develops narrative line as a tool to guide analyses about how content decisions are made by producers Synthesizes a system of explanation about why audiences attend to certain messages and how individuals construct meaning from those messages Incorporates an analysis of mass media organizations to provide greater context of understanding messages and their effects on individuals and macro units in society The book will play an important role in providing structure to a broad fragmented discipline I believe it will at the very least create important dialogues about what we now know understand about areas of mass media and where we should move as a discipline This book is clearly a call to arms for mass media scholars to ratchet up the quality of research and what we know to see the interconnections within and among strands of scholarship and to move forward in a more efficient organized manner Professor Potter should be commended for this Roger Cooper Ohio University This book is that call to action that comes forward every few years to wake us up and challenge our ways of doing things not by being radical but via synthesis I ve been waiting for several years for a book like this Sahara Byrne Cornell University
