Stagram Picks Tok Trending Deal

Victoria A. Goodyear, Andrea Bundon

Stagram Picks Tok Trending Deal:

Social Networks - The Modern-Day Family Vanessa Kirch, 2021-03-13 Social networks have created a plethora of problems regarding privacy and the protection of personal data. The use of social networks has become a key concern of legal scholars, policy makers and the operators as well as users of those social networks. This pathbreaking book highlights the importance of privacy in the context of today's new electronic communication technologies as it presents conflicting claims to protect national and international security, the freedom of the Internet and economic considerations. Using the New Haven School of Jurisprudence's intellectual framework, the author presents the applicable law on privacy and social media in international and comparative perspective, focusing on the United States, the European Union and its General Data Protection Regulation of 2018 as well as Germany, the United Kingdom and Latin America. The book appraises the law in place, discusses alternatives and presents recommendations in pursuit of a public order of human dignity. *Virtual Human-Animal*

Interactions Christine Yvette Tardif-Williams, John-Tyler Binfet, 2023-07-14 Interest in the field of human-animal interactions is burgeoning and researchers and educators are keen to understand the science undergirding research that helps us understand interactions between people and animals. Recently exciting and innovative research is focusing on how people's virtual interactions with animals can enhance their learning, social interactions and well-being. This research aims to answer questions such as: What types of interactions do people have with animals in a virtual context? How do people access and experience their virtual interactions with animals? Do virtual interactions with animals hold potential to enhance people's well-being and learning in the same way that in-person interactions with animals have been documented? What educational strategies could be employed to enhance people's virtual interactions with animals? How can we respect animals as research participants within a virtual context? Drawing from seminal and cutting-edge research in the field of human-animal interactions, these questions and others are answered in *Virtual Human-Animal Interactions*. Research informed and grounded in critical discussions of theory and practice, this book challenges readers to reconceptualize their understanding of research and practice, exploring the complexities inherent in and arising from people's virtual interactions with animals. Further, with an eye to the future, this book illuminates readers' thinking around the empirical and practical implications of facilitating interactions between people and animals within virtual contexts. Researchers and educators from across disciplines will find *Virtual Human-Animal Interactions* both scientifically savvy and practical. *Routledge Handbook of Digital Technologies in Sport, Exercise and Physical Education* Victoria A. Goodyear, Andrea Bundon, 2025-11-11 This is the first book to offer in-depth analysis of the use of digital technologies in sport, exercise and physical education, their significance for the relationship between sport, exercise and wider society and their impact on research in sport, exercise and physical education. Featuring the work of leading researchers from around the world and drawing on multidisciplinary perspectives including from sociology, pedagogy, psychology and related disciplines, with a strong focus on qualitative, social scientific approaches.

this book examines how individuals experience and engage with technology in the context of their physical practices Exploring key concepts and methodologies as well looking at how digital technologies are used in practice this book covers diverse topics including social media wearables apps video software AI and in the context of teaching coaching learning athlete safeguarding and more This book is essential reading for any student researcher teacher instructor or coach with an interest in sport exercise physical education psychology health and the relationships between technology and society **The Regulation of Social Media Influencers** Catalina Goanta,Sofia Ranchordás,2020-05-29 In today s society the power of someone s reputation or influence has been turned into a job that of being a social media influencer This role comes with promises such as aspirational work but is rife with challenges given the controversy that often surrounds influencers This is the first book on the regulation of social media influencers that brings together legal economic and ethical angles to further unveil the implications of influencer marketing **Proceedings of the 2023 2nd International Conference on Social Sciences and Humanities and Arts (SSHA 2023)** Mohd Fauzi bin Sedon,Intakhab Alam Khan,Mehmet CÜNEYT BİRKÖK,KinSun Chan,2023-06-29 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today s increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc Impact of Influencer Marketing on Young Women's Customer Experience on Cosmetic Products Jule Prescher,2023-06-06 Bachelor Thesis from the year 2023 in the subject Communications Multimedia Internet New Technologies grade 1 3 University of applied sciences Cologne language

English abstract This thesis aims to realize how influencer marketing performs and its impact on the Cx Therefore the research addresses the following questions How powerful are influencers these days What is different about influencer marketing and why is it a successful strategy How do people perceive information shared by influencers and which factors are decisive for potential customers to purchase products advertised by influencers What impact does an influencer have on the overall Cx The internet has been fully integrated into people s daily lives worldwide over the past years The percentage of the world s population with access to the internet has doubled from 32% in 2011 to 63% in 2021 90% of people from developed countries access the internet in 2021 At the same time the number of social network users is increasing These networks have the purpose of connecting with friends In 2022 5 billion people have access to the internet worldwide and 4.7 billion people use social media SM Ultimately 93% of those with internet access own at least one SM account that is more than half the population worldwide Through time companies found new marketing strategies which reached active people on SM These platforms are necessary to reach Generation Z people born in the late 1990s They are different and cannot be reached in the same way as they watch Netflix instead of TV or listen to Spotify instead of the radio for example Influencer marketing became a 10 billion industry in 2020 Influencers share their lives on SM networks Due to their high reach they receive offers from companies for cooperation Influencers followers admire and trust their recommendations due to their personal and authentic representation While advertising products influencers show how to use them where to buy them and give their opinion For higher sales influencers often receive promo codes for a discount or free products for each order

TikTok and its Impact on EFL Speaking Skills ,2025-06-18 Seminar paper from the year 2024 in the subject Didactics English grade 2-7 University of Duisburg Essen Institute for Anglophone Studies course Teaching English as a Foreign Language language English abstract This paper specifically examines the role of TikTok in EFL lessons While the positive aspects of digital learning tools are generally emphasized there is less research that addresses the specific pedagogical benefits and challenges of TikTok This study aims to fill this research gap by analyzing the effects of TikTok use on EFL learners oral language skills It also discusses what pedagogical strategies teachers can use to maximize the effectiveness of this integration It seeks to examine how teachers can effectively integrate this platform into their teaching By analyzing existing literature and considering theoretical approaches to language acquisition a comprehensive picture of the opportunities and challenges associated with the use of TikTok in EFL lessons will be drawn The central research question of this paper is How does the use of TikTok in the EFL classroom influence the development of learners oral language skills and what pedagogical strategies can teachers use to maximize the effectiveness of this integration Future teachers must not only master traditional teaching methods but also develop the ability to integrate digital tools effectively This paper aims to offers insights and practical recommendations that can help prospective teachers to use TikTok and similar platforms in a meaningful and effective way **Four Battlegrounds** Paul Scharre,2023-02-28 An NPR 2023 Books

We Love Pick One of the Next Big Idea Club s Must Read Books An invaluable primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning defense expert tells the story of today s great power rivalry the struggle to control artificial intelligence A new industrial revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define this struggle data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals Talent is about people which country attracts the best researchers and most advanced technology companies The fourth battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into their economy society and especially their military Scharre s account surges with futuristic technology He explores the ways AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits China s National Team of leading AI companies to show the chilling synergy between China s government private sector and surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful technology Engaging and direct *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare global security and the future of human freedom and what it will take for democracies to remain at the forefront of the world order
