For-Profit College Loans Ruined My American Dreams Ahmed Ceegaag, 2017-03-20 This book will be talking about for profit college admissions and their professors' revolutions in the future I would like to stop discrimination from for profit colleges And what is happening to innocent students like me They have ruined the American Dreams of young people such as new immigrants from African Union African American minorities and students who have studied at for profit colleges In this book I am going to discuss the main problems of for profit colleges Why were they harmed by these for profit colleges own student money or other problems However I am looking for a different idea such as exchanging our current higher education system for a for profit college charter system While it's true that our current for profit schools offer a charming variety of courses with very convenient class times they are typically unfriendly and inexperienced For profit college professors are not patient with their students It was also true that there are many services available to students if they need help Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 2015: Department of Education FY 2015 budget justifications United States. Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 2015 United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Labor, Health and Human Services, Education, and Related Agencies, 2014 The Climate Crisis and Corrupt Politics Larry J. Schweiger, 2019-11-15 There is only one earth and our world is undergoing dramatic changes brought on by the climate crisis and other human induced ecological disruptions The world's top scientists studying these threats and the forces behind them have been warning us for decades to end the use of fossil fuels or face catastrophic consequences Countering the still small voices of science our democratic system of government has been rigged largely by the fossil fuel industry and other special interests leaving America hoodwinked and held hostage to dirty fuels Campaigning politicians claim to be working for us when in fact

they are being paid and controlled by fierce special interests As a lifetime environmental insider in the struggle against fossil fuel interests I have written this book to better equip Americans for the struggle ahead Since 1978 I spent my career in the struggle to end carbon pollution in all of its forms and I have taken a unique perspective on the far reaching corrupt forces at work in government at all levels This is an urgent message aimed at parents and grandparents who care about their children forced to live on the ragged edge of an unprecedented climate crisis This book is also for young leaders who understand that we must act now with a Green New Deal scale response Together we must confront and overcome the many toxic money influences reverse a failing democracy and retake the reins of government to enact policies that secure our shared future and the future of life on earth We must work together Learn how powerful forces operating behind the curtain have been orchestrating our system for their benefit and our ultimate downfall Discover ways we can work together to fix a broken system and reclaim leadership to stem the climate crisis and avoid the ecological meltdown that threatens a million species on Earth Together we can and must reclaim our government and restore our precarious environment We must confront the lies and end gerrymandering voter suppression and other political manipulations that thwart progress to a clean energy future We must respond to the climate crisis with a bold plan to convert to a carbon free energy future By acting now we can still change the outcome of life on earth

American Made Dan DiMicco, 2015-03-03 American manufacturing is on life support at least that's what most people think The exodus of jobs to China and other foreign markets is irreversible and anything that is built here requires specialized skills the average worker couldn't hope to gain Not so says Dan DiMicco chairman and former CEO of Nucor America's largest steel company He not only revived a major US manufacturing firm during a recession but helped galvanize the flagging domestic steel industry when many of his competitors were in bankruptcy or headed overseas In American Made he takes to task the politicians academics and political pundits who he contends are exacerbating fears and avoiding simple solutions for the sake of nothing more than their own careers and contrasts them with the postwar leaders who rebuilt Europe and Japan put a man on the moon and kept communism at bay We need leaders of such resolve today he argues who can tackle a broken job creation engine by restoring manufacturing to its central role in the US economy and cease creating fictitious service businesses where jobs evaporate after a year or two as in a Ponzi scheme With his trademark bluntness DiMicco tackles the false promise of green jobs and the hidden costs of outsourcing Along the way he shares the lessons he's learned about good leadership crisis management and the true meaning of innovation and maps the road back to robust economic growth middle class prosperity and American competitiveness

Nation of Victims Vivek Ramaswamy,2022-09-13 The New York Times bestselling author of *Woke Inc* and a 2024 presidential candidate makes the case that the essence of true American identity is to pursue excellence unapologetically and reject victimhood culture Hardship is now equated with victimhood Outward displays of vulnerability in defeat are celebrated over winning unabashedly The pursuit of excellence and exceptionalism are at the heart of American identity and the disappearance of these ideals in our country leaves a deep moral and cultural vacuum in its wake But the solution isn t to simply complain about it It s to revive a new cultural movement in America that puts excellence first again Leaders have called Ramaswamy the most compelling conservative voice in the country and one of the towering intellects in America and this book reveals why he spares neither left nor right in this scathing indictment of the victimhood culture at the heart of America s national decline In this national bestseller Ramaswamy explains that we re a nation of victims now It s one of the few things we still have left in common across black victims white victims liberal victims and conservative victims Victims of each other and ultimately of ourselves This fearless provocative book is for readers who dare to look in the mirror and question their most sacred assumptions about who we are and how we got here Intricately tracing history from the fall of Rome to the rise of America weaving Western philosophy with Eastern theology in ways that moved Jefferson and Adams centuries ago this book describes the rise and the fall of the American experiment itself and hopefully its reincarnation
