Survival Strategies for Today's Graduate Todd Little, 2018-05-17 Survival Strategies for Today's Graduate is dedicated to providing the most comprehensive and reliable information concerning all the lessons in life that you have not yet learned. This book will enable today's graduate to fulfill his/her vision of successful living by granting them access to resources that will help them better understand how to function more productively. Most of today's graduates are extremely unprepared when it comes to applying the everyday skills that the average consumer needs to know. These are very important issues that they will most certainly face at some point in their life such as creating a resume, being interviewed for a job, managing their credit, buying a car, and obtaining a mortgage. Most of these lessons are unfortunately not taught in our high schools or colleges due to a severe lack of funding. These lessons are vital to all our graduates so that they may become functioning members of our society. *George W. Bush, Former President of the United States (Leadership, Vision, Reforms)*

IBP USA, 2013-08 A collaboration between an attorney and an animal protection advocate, this work utilizes the extremely controversial and high-profile crush video case *US v Stevens* to explore how American society attempts to balance the protection of free speech and the prevention of animal cruelty. Starting from the detailed case study of a single prominent ruling, the authors provide a masterful survey of important issues facing society in the area of animal welfare. The *Stevens* case included various hot topic elements connected to the role of government as arbiter of public morality, including judicial attitudes to sexual deviance and dogfighting. Because it is one of only two animal rights cases that the US Supreme Court has handled and the only case discussing the competing interests of free speech and animal cruelty, it will be an important topic for discussion in constitutional and animal law courses for decades to come. The *Stevens* case arose from the first conviction under 18 USC 48, Section 48, a federal law enacted in 1999 which criminalized the creation, sale, and/or possession of certain depictions of animal cruelty. The US Congress intended Section 48 to end the creation and interstate trafficking of depictions of animal cruelty in which animals are abused or even killed for entertainment's sake. Proponents of Section 48 predicted that countless benefits to both humans and animals would flow from its enforcement. Opponents of the law argued that it was too far-reaching and would stifle protected speech. Critics of Section 48 appeared to have prevailed when the US Supreme Court struck the law down as unconstitutionally overbroad. Although a law tailored to address the Supreme Court's concerns was quickly enacted, the free speech/animal cruelty controversy is far from over.
