*Beasts Like Us* Feral Sephrian, 2016-09-24 Mateo, a jaguar nagual descended from Mayan shamans, attends the Northern Nevada Con-fur-ence furry convention to hide in plain sight. Who will look twice at a long black tail and inhuman yellow eyes when there are neon huskies and dancing dragons around? There, Mateo meets Dazi, a mountain lion skin walker who is at the con with friends from his Shoshone Paiute reservation. They want to find out if the furries are close to stumbling across their tribe of shifters. When these two big cats rub up against each other, their cultures collide in a way neither Mateo nor Dazi could predict. But Mateo has trouble being entirely human around his alluring new companion, and Dazi puts his tribe at risk when he reveals their secrets to an outsider. Can Mateo and Dazi overcome their natural secretive and bestial instincts to find their purr-fect ending?

Protecting Our Kids? Emily Horowitz, 2015-04-21 This thought-provoking work raises important questions about sex offender laws: drawing from personal stories, research, and data to prove the policies promote fear, destroy lives, and fail to protect children. Do sex offender laws protect children, or are they inherently unfair practices that at their worst promote vigilante justice? The latter, this book argues. By analyzing the social, political, historical, and cultural context surrounding the emergence of current sex offender policies and laws, the work shows how sex offenders have come to loom as greater-than-life monsters when in many cases that is not true at all. Looking at its subject from a fresh viewpoint, the book shares research and new analyses of data and qualitative evidence to show how sex offender laws are not only ineffective but engender destructive fear and anxiety. To help readers understand the impact of these laws, the author presents interviews with sex offenders and their families as they describe the day-to-day reality of living on the sex offender registry. Citing research and statistics, the book challenges the idea that sex offenders must be continually monitored and publicly identified because they are incurably predatory. Most important, the study shows that undue sex offender panic is preventing policymakers from addressing the true threats to children: poverty and growing inequality.

*Growing up in the Rockies* Janice N. Richards,2011-07-05 My heart drifts back to the Rocky Mountains as I sit and look out the window I see the snow that once brought such joy to my heart I remember the days when I would have been known as a snow bunny I think of my poor mother and how difficult it was for her to keep me indoors for I was a mountain girl I climbed the mountains I chased the animals I found all of God's creatures beautiful I was my father's child He roamed the wilderness and I learned from him I loved to live life and I was very very happy It makes me very sad when I think of children who have not experienced such happiness for I was one of the lucky ones That is why I wish to share my life with you I hope that in this day and age of single parents that maybe someone who reads this can get hope from the true meaning of family I had a family that surrounded me with love and I never understood the meaning of poverty even though we were very poor I always felt like our life was normal and that was how the whole world was It would not be till my adult years that I would find this not to be true and to experience the pain of a life that I had never known It is hard for me to know where to begin as I remember back on the life that I loved and miss so much However I wish to share the memories that made me who I am today Italian Greyhound Chloe H.
